### Scientific and Useful.

Do any of the ladies know that they can have a nice mess of dumplings this time of the year by boiling biscuit dough (no shortening) in clear water, then eat with cream and canned or dried fruit; boil your dough twenty minutes and no longer if you want it nice and light.

TOMATO sauce to pour over meat is made thus. Stew half a dozen ripe tomatoes with a little chopped parsley, salt and pepper to suit the taste; strain it, put it on the stove again, and when it begins to boil add a spoonful of flour rubbed smooth with a tablespoonful of butter, and let it boil up once.

TROUT baked in cream add a new charm to life. Clean the fish, pepper and salt both inside and out, put it in a dripping-pan, and pour cream over it. Give attention to it so that it will not burn. If small, the fish will bake in from fifteen to twenty minutes. Serve with mashed potatoes and other vegetables.

EASILY PREPARED DESSERT.—An easily prepared dessert is made of tapioca; it hardly seems appropriate to call so dainty a dish a pudding. Soak a cupful of tapioca for an hour in cold water, then boil, adding warm water enough to allow it to expand; when tender sweeten it, and take from the fire; add an orange cut in small bits for flavouring. Serve with cream.

TRY this method for cooking eggs. Heat a meat platter and lay on it as many pieces of toast as you wish, lightly buttered. Beat eggs, with a little fine salt. Heat in a saucepan a little sweet butter, turn the eggs into it and stir quickly with a wooden spoon till the mass has assumed the consistency of thick cream, pour this over the toast and take it to the breakfast table.

A BASKET.—Take a basket-shaped block, and having crocheted with coarse tidy cotton a piece that can be stretched over it tightly, starch it well, and when thoroughly dry varnish it with gum-shellac dissolved in alcohol. Take it from the form in a day or two. Line with something bright, and tie two knots of ribbon on either side to match the lining. Finish with a flat crochet border.

ESCALOPED apple is made with alternate layers of soft bread and sliced apple in a buttered pudding-dish, with a sprinkling of sugar, nutmeg or cinnamon and bits of butter. For a three-pint dish half a cup of sugar will be sufficient, unless the apples are very sour. A little grated rind or juice of lemon is an improvement. Have a thick layer of bread crumbs moistened in melted butter on top. Cover at first, to avoid scorching, and bake about one hour.

ABOUT VEAL.—"My only objection to veal," said a gentleman at our table the other day, "is that it is too premature." This remark might apply to the usual manner of cooking it, as well as to the meat itself. Veal steak, in order to be palatable, must be cooked thoroughly, no matter how much haste the cook is in; this should never be sent to the table till it is nicely browned, edges and all. Salt and butter and a decided sprinkling of black pepper are also necessary.

CURE FOR BEE STINGS.—A writer in the *Bee-keeper's Magazine* gives the following as a cure for bee-stings: "Take a pinch in the fingers of common table salt, put on the place stung and dissolve with water, rub with the finger. If not relieved in one minute, wet the place with aqua ammonia. Care should be taken not to get the ammonia in the eye. I have used this remedy for several years, and it has never failed with me. It has always arrested the poison and prevented swelling."

UNDER the present management of the International Throat and Lung Institute, those who unfortunately are suffering from Consumption, Asthma, Bronchitis, Catarrh, Catarrhal Deafness or any diseased condition of the air passages, can avail themselves of the advantage of receiving treatment by the Specialists of this Institute, which is acknowledged to be the best of the kind in America. Souvielle, of Paris, Ex-aude Surgeon of the French Army.
