What Were Your Net Profits Last Week?

Do you know how much money you made last Saturday and the five days preceding?

Can you tell exactly what each of your salesmen sold, what the selling expenses were and how much net profit the sales represent?

Are you certain that Jones didn't sell more than Smith, and Smith more than Brown, for all that Brown draws the highest salary?

Are you dead positive that there are no leaks anywhere in your business that you ought to know about

Business Systems can tell you every Saturday night where you stand.

Business Systems include a perfect record of costs that will enable you to know.

Business Systems itemizes every ounce of material entering into your product.

Business Systems does not mean revolutionizing your business methods; but simply puts your books in such shape that you can find out where you stand at a moment's notice.

Cut off the corner coupon, pin it to your letterhead and mail it to us to-day.

Doing this does not obligate you in any way and will bring you a personal letter or a call from one of our trained accountants to tell you exactly how Business Systems may be most economically applied to your accounting department.

Tear off the coupon and drop it in an envelope that has your name on the corner. Now.
