MEDICAL REVOLUTION 1 THE WORLD UNANIMOUS ! """

HOLLOWAY'S OINTMENT.

THE GREAT COUNTER IRRITANT!!

THE virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, molting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the lives, the lungs, or any other important organ. It penetrates the surface to the interior, through the countiess tubes that communicate with the skin, assummer rain peaced into the fevered earth, diffusing its cool and regenessing influence.

BEIN DISHASES AND GLANDULAR

BWELLINGS:

Every species of exterior irritation is quickly reduced by the anti-inflammatory action of this Olument. Augry Enurrious, such as Salt Rubbus, Envirence. Terrage Enurrious, Sold Head, Nattle Rasis. Soldies (or lich) &c., die out, to return no more, under its application. Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the loints and the glands.

tion. Hospital experience in all parts of the world proven its infallibility in diseases of the skin, the muscles, the joints and the glands.

ULCERS, CORES, AND TUMORS.

The effect of this unrivalled external remedy upon Scretia, and other virulent alters and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterwards complete are safe as well as permanent.

Wounds, Bruises, Burns, and Scalds.

In cases of the fracture of the bones, injuries caused by steam explosions, Bruises, Burns, Scalds, Rheumatism. Stiffness of the Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvellous romedy has been introduced by its inventor in person into all the leading hospitals of Europe, and private household should be wi vout it.

UNDENIABLE TESTIMONY.

The Medical Staff of the English and French armies in the Crimea have officially signed their approval of Hollows's Omment as the most reliable dressing for sabre cuts, stabs, and gun-shot wounds. It is also used by the surgeons of the Ailied Navies.
