

WYETH'S ELIXIR TERPIN HYDRATE

There seems to be little or no doubt from recent investigations and the flattering results of the internal exhibition of this derivative of Turpentine, that it plays a very important part in the therapeutics of the profession. In the treatment of Chronic and Obstinate Cough, Bronchitis, etc., it has proven almost a specific. The eminent authority, Lepine, says unequivocally, and with emphasis, that "it is the best expectorant in existence." This, also, seems to be the impression it has made upon a number of our own medical men most familiar with the treatment of diseases and ailments of the lungs and throat.

WYETH'S ELIXIR TERPIN HYDRATE AND CODEINE

This combination will, we think, prove most acceptable, embracing the expectorant and calmative properties of these two most valuable remedies. The experience of those who have already used this latter elixir, has proven it to be eminently successful in allaying the distressing cough following Influenza and other Bronchial affections, without disturbing the stomach by creating nausea or loss of appetite.

WYETH'S ELIXIR UTERINE SEDATIVE SPECIFIC

Viburnum Opulus (Cramp Bark), *Hydrastis Canadensis* (Golden Seal),
Piscidia Erythrina (Jamaica Dogwood), *Pulsatilla* (Anemone Pulsatilla).

The above combination cannot but at once appeal to the intelligent practitioner as almost a specific in the treatment of the various kinds of pain incident to the diseases of the female sexual organs, so varied in their character and such a drain upon the general health and strength.

It is most valuable in cases of Dysmenorrhœa. Never fails, and is equalled only by opium, without having any of the dangers of that narcotic.

It possesses very remarkable antispasmodic properties. It also acts as a nervine tonic, astringent, and is a useful remedy in Diarrhœa and Dysentery, and is particularly valuable in preventing abortion and miscarriage, whether habitual or otherwise.

Per dozen Pints, - \$11.40.
