PRINCIPAL GRANT thus concludes his admirable Introduction:—

"I abstain from saying here all that I feel concerning the authors' work, because those who read the Preface are sure to read the book, and they will judge for themselves. Enough to say that to me it has been an unmixed delight to read the proof. Their racy descriptions give vivid glimpses of the good old times, and many Canadians will join with me in thanking them for allowing us to sit beside one of the cradles of our national life—*incanabula nostrae gentis*—and hear some of the first attempts at speech of the sturdy infant."

The numerous illustrations scattered throughout the volume add much to its value. Many are reproductions of old portraits or sketches that would otherwise have been lost. A very complete Index is a feature in the book that will be much appreciated.
