

**IRISH-AMERICAN PROCLAMATION.**

Boston, February 4.—The following proclamation has been issued by the Irish National Land League of Boston, U.S.—To the members of the Land League and American people: The crisis has been reached in Ireland. It is not unexpected what has happened. The suppression of free speech, arrest without bail, and darkening the land with spies and soldiers, and the coercion blow before remedy, all these were inevitable. England moves but slowly toward justice, behold her swell war weapons. There is a new Ireland in the mass of her people. Zeal and endurance in leadership. Capacity sufficient for the time exists and strong, thoughtful, resolute men lead. If they are silenced others will fill the vacant places. Ireland cries for justice. The Land League is her voice. England must build more goals before her people can be satisfied. To outrage upon the people's representatives, to attempt to place Ireland upon her knees, to beat and scourge her before regulating wrongs, the arrest of Michael Davitt, that America give her protest. As fire flamed amid all the hills in the olden time, when the edict went forth, so now in American cities that fire kindle your indignation into a blaze. Call public meetings everywhere at once. As we save the Irish people from death and arouse them from despair, show your sympathy is still with them in their great struggle together. Members of the League, keep closer to the cause. Form new branches in every place. Where true friends of the cause can be found, and place yourself in immediate communication with us. Ireland moves fast to her supreme course; we must be close together when the hour to strike comes. With the wisdom and prudence of the Irish leaders, they are cheered and sustained by your sympathy. Make your sympathy more marked. Organize everywhere. Signed, P. A. Collins, President.

**Consumption Cured.**

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for Consumption, Bronchitis, Catarrh, Asthma, and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French, or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. W. SHEAR, 140 Powers' Block, Rochester, N.Y. 11-cow-G

**"AN IRISH LADY."**—Our evening contemporary of the ex-employment agency is entering on a crusade against the Irish people, while all the other local papers are becoming more liberal and impartial. Its issue of Friday contained an item on an "Irish lady," which is simply shameful. If the Irish people persist in taking this rag it is their own fault if they are reviled.

**BROTHER ARNOLD'S LOTTERY.**—Brother Arnold has received from Brother Patrick, Assistant Superior General of the Christian Brothers, a magnificent chalice, value for \$200, and of beautiful and elegant style. It is intended for a grand lottery which is to be held next September to liquidate the debt incurred by the erection of the Brother's House. Brother Arnold has lately been travelling and he never travels without a purpose and a result. He has already received prizes worth thousands of dollars, including pianos and other valuable articles, not forgetting money, and he has received from Protestants as well as Catholics. He intends having 150 valuable prizes in the lottery, of which the least will be worth \$50. He is in possession of half of them already, and if he has to go as far as San Francisco will obtain the balance. Nothing is impossible to Brother Arnold except growing old or indolent. *Labore omnia vincit*, with a tinge of popularity.

**COMMON SENSE IN MEDICINE.**

(*Montreal Star*, January 5, 1881.)

Dr. M. Souville, the Parisian physician and inventor of the Spirometer for the scientific treatment of diseases of the lungs and air passages, who recently took up his residence among us, seems to be meeting with excellent success. Already the doctor has had upwards of a hundred patients, who have given his system a trial and, so far as we have learned, with both satisfaction and benefit. Doctor Souville makes a departure from the usual methods of treating diseases of the air passages. He contends that the proper mode of treating them is by inhalation and absorption, not by pouring drugs into the stomach, and thus upsetting and disarranging one part of the system in the hope of benefiting another. This argument certainly has the advantage of being common sense, which is always the best kind of sense. The doctor certainly has the courage of his opinions and confidence in his system, for he gives a standing invitation to physicians and sufferers to visit him and test his instruments free of charge. His office is at 13 Phillips Square, Montreal.

It matters not how often your advisers tell you that diseases such as bronchitis, asthma and catarrh are incurable, read the following notices and judge for yourselves:—

**MONTREAL, January 13th, 1881.**  
DEAR DOCTOR.—I have great pleasure in testifying to my experience of the beneficial effects I have derived from the use of your Spirometer and remedies for the cure of Catarrh and Bronchitis, which I was afflicted with for several years; my health is now wonderfully improved since using your remedies.  
Yours truly,  
C. HILL,  
Dorchester street,  
13 Phillips' Square,  
Montreal.

**MONTREAL, January 21st, 1881.**  
MY DEAR SIR—I am very pleased to bear testimony to your mode of treating throat diseases. My little girl, eleven years of age, has had various attacks of bronchitis. Last fall she had one of those attacks and was confined to the house for some time. I might have said that I am now quite cured, and that I am very much indebted to you. After using one of your Spirometers, with the medicine accompanying it, I am very happy to say that within two weeks after commencing to use the instrument, she was quite better, and was as healthy as ever since, now about two months.  
I am, Yours truly,  
R. L. GAULT.

To Dr. M. Souville, c. Montreal.

**MONTREAL, January, 1881.**  
DEAR M. Souville, Montreal.  
DEAR SIR.—I am very pleased to give you this testimony of the benefit I have received from the use of your instrument, Spirometer, and the remedies accompanying it for my disease. I was three years troubled with catarrh in the head, loss of voice and bronchitis, and I am happy to say that I am now quite cured, and I want to thank you for it by the use of your Spirometer and remedies.  
Yours respectfully,  
J. H. BAILLON,  
13 Dorchester street, Montreal.  
Letters must contain stamp for reply, and must be accompanied by testimonials, and preparations expressed to any address.
