

CANADA'S LARGEST RADIATOR MANUFACTURERS

Safe Hot Water and Steam Heating

SAFFORD RADIATORS

*Safford
Corner*

Are unique because no Bolts, Rods or Packing are used in their connections.

The vital point claimed (and guaranteed) is that their circulation is absolutely free and unobstructed, and will stand double the pressure that any other Radiator is capable of bearing.

Talk is cheap, but it takes the Safford Heating Apparatus to do the work in winter.
