SAMSON CORDAGE WORKS, Boston, Mass.

A HEATER WITHOUT A JOINT

Is what we offer you in

THE PRESTON HOT WATER BOILER

The advantages of this feature in its construction are self-evident. There can be no leaks on account of bad packing, nor is there any opportunity given for expansion or contraction to open up joints. The water chamber is made in ONE SOLID CASTING, and so designed as to give a VERTICAL CIRCULATION. By making use of this NATURAL LAW, we greatly increase the efficiency of the heater.

A post card to us will bring our booklet with a full description.
