

Fluxphalte

“The Premier Road Dressing and Binder”

(NOT A ROAD OIL BUT A LIQUID ASPHALT)

The Best Municipal Engineers of to-day are using “FLUXPHALTE” for the following reasons:

“Fluxphalte” is an Asphalt Macadam Binder, produced from the vast natural oil resources of Mexico, by refiners who have spent years of careful investigation in perfecting the methods of refining, aided by the best available experts.

It is absolutely free from greasy oils and has demonstrated its superiority over all other dressings in the following points:

PERMANENCE.

Has remained a carpet on the road surface long after tar, applied at the same time had disappeared.

SILENCE.

This bituminous carpet on the road surface is plastic, resilient, silent, and non-slippery.

CEMENTING POWER.

It penetrates the road surface and binds the metal.

NON-POISONOUS.

It contains no poisonous elements to contaminate streams or rivers, with consequent danger to fish life.

COST.

Practically as cheap as tar, and the many so-called asphalt and bituminous binders.
