THE EDUCATIONAL REVIEW,

Fredericton, N. B.

P. O. Box, 850.

The Review has received from Messrs. Swift & Company, Chicago, a Prospectus outlining some of the work done in the Continuation School by the Company at the Union Stock Yards, Chicago. The aims of the school are (1) To enable the boy or girl who has not completed the eighth grade to obtain the minimum essentials of the work given in the Public Grammar Schools, (2) To enable the boy who has an eighth grade education to obtain an education equivalent to the Chicago two year Commercial Course, (3) To train the boy for lines for which he is mentally and physically adapted, (4) To recommend capable boys for transfer or promotion when requested by department heads, (5) To train the boy in that which is directly applicable to his future work in an office.

The subjects of the course are: Penmanship, Arithmetic and English. Frequent lectures are given by experts in their line on departmental activities. These are followed up by class work and reading assignments in the Company's splendid library.

In addition to the work mentioned above, instruction is given in Applied Business Correspondence to both dictators and stenographers, the classes being held at noon hour.

In this school about 300 pupils receive one hour of instruction daily.

The work is done under the supervision of the Chicago Board of Education, which furnishes two experienced male instructors. The Swift Company furnishes all supplies and equipment.
