

## WE DON'T PERFORM ..... MIRACLES

We don't claim to do impossible things. Sometimes we can restore colors after cleaning garments, and sometimes we can't. Sometimes we are successful when others fail. But if Parker can't restore a color, you can set it down that nobody else can. The way to do when the original color won't come back is to dye the garment.

Ladies' Dresses, Men's Suits, Overcoats ; Table and Piano Covers ; Repp, Damask, and Lace Curtains ; Ostrich Plume Tips, etc., are subject to new effects at our hands.
