

Wheat Stocks

The visible supply of wheat in the United States and Canada, east of the Rocky Mountains, for the week ended Nov. 16, 1895, shows an increase of 8,890,000 bushels, against an increase of 1,062,000 for the corresponding week last year and an increase of 1,701,000 bushels the corresponding week two years ago.

The following table shows the total visible supply of wheat on the dates named for four years, as compiled by the Chicago board of trade and includes stocks at most important points of accumulation in the United States and Canada, east of the Rocky Mountains. There are some important points not covered by this statement:

	1895.	1894.	1893.	1892.
