MORE ABOUT HOGS.

TY MEANS Senate Reading Room

1 Jan 12-14512

AND OUI SENATE PO
SE CIPROCITY MEAN! MOVED TO BUFFALO.

The weekly report of the Toronto live stock markets, carefully compiled by The World's reporter, are interesting at this ncture. A record has been attained, in that both markets score an advance in each class of live stock. For the present, the hogs are in the majority, a grand total of 9758, an increase of 5780 over the corresponding week of 1910, or an increase of over 125 per cent. Truly, the Ontario hog is asserting his rights to commercial recognition.

The amount of money paid out in Toronto for those healthy hogs in Toronto last week would be around \$146,000. It must be borne in mind that there are other large pork packing estabshments situated at Hamilton, London, Ingersoll, Chatham, Collingwood, Peterboro, and other somewhat smaller places, buying hogs weekly. Estimating a payment of \$250,000 to the Ontario farmers last week for live hogs would be a safe, low limit. A weekly production of a quarter of a million dollars of raw material is a commercial prize to be grasped for! Times have certainly changed in the past eight years. At that time Chicago prices for hogs dominated the markets all over this continent. Two or three large independent pork packing estabishments in Buffalo held out as long as possible, then they obtained a large number of Ontario hogs, and now they do not

even hear the grunt of a Canadian hog. You have noticed in the past week or two a fine display advertisement of Buffalo, setting forth in alluring statements its advantageous position for manufacturing purposes. There is value in the Ontario hog. The Buffalo pork packers do not despise the Ontario hog. They are leaving no stone unturned to again allure car loads of live hogs raised in Ontario to be slaughtered in Buffalo. The political cuckoo song is "a wider market." What a delusion. The aim and purpose of the American pork packers is to obtain control of the Canadian live hog. When you behold carloads of Canadian-cured bacon, hams, barrelled pork and rendered lard, then it will be time to throw up both hands and cry "a wider market." Make sure that the carloads are delivered to the United States butchers and sold publicly as Canadian products before you shout. It reminds one of the saying: "Said the spider to the fly, come into my parlor."
Many farmers have seen very wide spider-webs. They know the wider the spider's web the more likely to catch the unwary heavier fly. The wary fly more quickly discovers the wider web and steers clear away on its own wings. Adept raisers of hogs in Ontario, do you detect the hiding spider?

Reciprocity means a loss on the average of over a dollar a hundredweight on every hog raised in Ontario; and it means that Buffalo will take away all our dead meat trade, and that the term Canadian bacon will disappear from the British market.

The World, when it says that, is not quoting "guff," but the views of men in the business, farmers, drovers, packers and

THREE RIVERS, Que., Aug. 6.—
Before an enthusiastic audience of 10,000 people Mr. Monk, M.P., for Jacques Cartier, opened the federal campaign here to-day. Mr. Monk had on the platform with him the Nationalist leader, Henri Bourassa and his heutenant, Armand Lavergue, both of whom made effective speeches. It was one of these unique occasions in Quebec when the people go to mass in the forenoon and remain for political discourses in the afternoon, then go courses in the afternoon, then go home, having done their full duty to their religion and political ideals. It was the opportune time to hold the meeting, as thousands of farmers from the country side are able to be pre-

Mayor Normand, who will be the candidate for Three Rivers, opened the fire on the Laurier Government.

Mr. Blondin, M.P., for Champlain, followed on the naval question, and then came F. D. Monk, M.P., who delivered the main speech of the day. Henri Bourassa was given a great reception. He said among other things that Laurier and Borden seemed to have agreed that reciprocity should be the one theme of the coming election.

premier Laurier had brought on the reciprocity agreement to cover up the naval bill, but Mr. Bourassa said he would not be cribbed in that way as

Mr. Monk took up the naval question in his opening speech, explaining the stand taken by himself and by other members of the Conservative party, that the people should be consulted before launching on such a policy. This was an attitude in strict harmony with the best traditions of modern British institutions which had been falsified by opponents in a campaign from one end opponents in a campaign from one end of the country to the other.

After remarking that the duty of Canada in regard to defence is to undertake in as large a measure as possible the protection of this country. Mr. Monk said: "We have kept this agreement of the country of the country.

Since Hon. Rodolphe Lemieux opened the campaign here four weeks ago or more a dozen demonstrations have been held in different parts of the province by the government and their parliamentary followers followed every time at about the same place by Henri Bourassa, F. D. Monk, and the old-time Conservatives. Now the difference between these gatherings in point of numbers, enthusiasm and in every thing else that goes to make up political demonstrations in French Canada is very marked.

Reciprocity Flailed With Vigor at Conservative Rally and Thousands Cheer Loyal States ments - Premier Whitney Declares It's People's Own Organization That Means Success in Ontario.

1878 OVER AGAIN SAYS W. F. MACLEAN

While an attendance of 3000 (three thousand) testified to the interest felt in the Osler-Macdoneil rally on Saturday in spite of the suitry weather and the absence of R. L. Borden, who had been expected to be present, the importance of the demonstration consisted quite as much or more in what was said as in the attendance.

Sir James Whitney placed himself on record in reply to the twin "exponents of high political morality," The Globe and The Star, who had taunted him with being unable to make up his mind to take sides on the reciprocity issue until great pressure was brought to bear upon him. Sir James was characteristically indignant at the insinuation and repelled it with fervor. The crowd cheered enthusiastically as he indignantly repudiated The Globe's doubt as to where the Ontario Government and the weight of its organization would be.

"I feel hurt at that remark, that I, who am pretty well known, should have it said of me, that at the greatest crisis that the people have ever faced, I should have to have pressure applied to me to bring me out on the right side.

Civic Holiday Reminiscences. To-day is Toronto's Civic Holiday, then we celebrate the elevation of our cliv to the rank of a metropolis. 'Twas in 1834 that we took off the long clothes of municipal infancy and began to creep. In 1864, when Dineen's began selling hats in Toronto, we were just in the semi-long-pants stage. We were still in our adolescence. In the early days of Toronto hats were ruin-ed by getting submerged in the mud, or being trampled upon by placid cows brousing along our highways of commerce. How time flies—and changes in its flight? Now your hat gets run over by a horseless car, worked by artificial lightning scraped off a wire by a pole stuck through the roof. If this happens to your hat, on the seventy-seventh anniversary of our municipal incorporation, you will have to wait until Tuesday before you can get a new hat from Dineen's, hatters and furriers, corner Yonge and Tenperance. Store closed all day. So look out for your hat.
