PORCUPINES CAN COME BACK. The feature of the stock exchanges during the last few days, in fact ever since the opening of the Monday session this week, has been the decided improvement in evidence in the sentiment ruling in the mining markets. Hollinger has, of course, been the leader in the trading, and the sharp spurt in these shares has been carried on to such an extent as to be reminiscent of the early attitude of the big Porcupine issue. The advance has been by no means confined to that one security, however, the whole market benefiting greatly as a result of the resumption of buoyancy, and several of the cheaper stocks scoring sharp advances thereby.

A special despatch from London, via Montreal, yesterday, reported that Werner, Beit and Co., of London, Eng., the great English mining house, were heavy buyers of Hollinger, and that the firm had taken an active interest in the big Porcupine company. News of this calibre is more than likely to give a decided fillip to the market.

JUDGE SEVERE ON SPIES

Heavily Sentenced For Supplying Information to Britain. LEIPSIC, Germany, Dec. 13 .-- (Can. Press.)-Heavy punishments were meted out to-day to the English spies ar-

rested at Hamburg on March 18, and

Ship Broker Schultz and Others

who have been on trial behind closed who have been on trial behind closed doors before the imperial court for several days.

Max Schultz, an English ship broker, was sentenced to seven years' penal servitude. One of his associates, an engineer named Hipsich, was condemned to twelve years in tail; another engineer named Wulft was sent to jail for two years; a merchant named Von Maack and Max Schultz's housekeeper each received three years.

Max Schultz was accused of using his profession as a ship broker as a covering for corrupting shipyard workmen and getting them to betray German naval secrets. He was for a long time closely watched by detectives during his frequent trips between Hamburg and Bremen, at which ports ten German warships of different types were at the time under construction.

Clique Broken Up.

The judge in sentencing the accused said that their arrest had I roken up a group of spies, whose activities were dangerous in the highest degree to the safety of the empire. Hipsich particularly, who had been twelve years employed as an engineer in one of the principal naval shipyards, was able to collect designs and information from all the German yards. This he delivered in January last to the agents of an English information bureau thus exposing Germany's most important military secrets.

Max Schulz, whose sweeping admissions had established the guilt of both himself and the others had organized according to the judge, a network of spies thruout Germany. These reported directly to the English information bureau.

The severity of the sentences, which have to be served in a penitentiary and not in a fortress, as is usually the case, indicates how gravely these cases of espionage are regarded.

Steamers in War.

The merchant, Von Maack, according to the testimony, furnished decuments, showing how the steamers of the Hamburg-American Line and the North Glerman Lloyd are to be used in the event of war as well as data in reference to the Diesel motor, which is now building for the navy at Nuremberg.

LOOKING INTO INTERCOLONIAL

OTTAWA, Dec. 14 .- (Can. Press.)

OTTAWA, Dec. 14.—(Can. Press.)—
Owing to many complaints received
by the government about the management of the Intercolonial Railway, it
has been decided to fully investigate
conditions on that road.

As a means of investigation, Hon.
Frank Cochrane, minister of railways,
has appointed Emile Jolly of Quebec,
and James A. Macdonald, commissioners, to look into the charges of parusanship and neglect of duty preferred
against some high officials of that
company.

Waits for Friend. William Langmuir, alias Budrick Fraser, who was arrested early yesterday morning near the premises of day morning near the premises of a sporting goods store on Yonge-street, which had been broken into, was remanded a week in police court yesterday morning to give the police a chance to land his companion on the job, who escaped when Langmuir was taken. Langmuir pleaded guilty to the charge.
