HORSE SHOW, ETC.

It is meedless to remark how cramped the Canadian National Horse Show has been, the accom-modation being totally inadequate to meet the demand in every direction. Stables for eighty horses have been included in the plans. Then again, there are the Auto Show, Pute Food Shows, Vandeville Shows, endless conventions, band concerts and industrial exhibitions for none of which Toronte has a properly equipped building. 江花的小家子 带电影

ICE PLANT.

ICE PLANT. A new venture is connection with these undertakings is that a hundred-ton artificial to plant is being installed, under contract with the De La Vergne Company, dated June 33rd, 1911. This plant will not only maintain the skating ice during the winter, but will also manufacture fifty tons of ice per day for family consumption during the summer months. This ice plant will make it possible to always have, regardless of weather conditions, a cool building in summer and a reliable, clean ice surface for all winter sports, and an absolutely safe place for skating without exposure to severe cold. The profit on the sale of ice during the summer senson will, it is expected, not only pay for the cost of running the ice plant during the winter, but furnish a very considerable revenue.

THE SITE, date senter assures i sure attraction as a

The Arena Gardens Building has been erected on that block of land situate on Mutual, Shuter and Dahhousie Streets, and is accessible by the street cars from every point in Toronto. It is about seven minutes' walk from the King Edward Hotel and the General Postoffice.

THE BUILDING.,

The building, from plans prepared by Ross & McFarlane, of Montreal, is being solidly built in brick, steel and cement by Peter Lyall & Sons, Limited, under contract dated August 29th, 1911, and covers a ground space of 334 x 190 feet. It has an ice or skating surface of 200 x 85 feet, with a ten-foot promenade all round.

SEATING CAPACITY.

The seating capacity will include two tiers of boxes of about fifty on each side, and seats for over 6000 spectators in pit form all around the arena. In this connection it should be pointed out that the seating capacity of the Montreal Arena is about 4000, and that on many, many occasions each season the demand for tickets has far exceeded the supply. Every possible convenience is be-ing prepared in the way of clubrooms, tea, waiting and smoking rooms, lavatories and dressing rooms.

· PROSPECTS.

With the undoubted steady growth of population in Toronto, and the unflagging interest in hockey, skating and all kinds of summer entertainments, to say mothing about the other sources of income which will be the natural outcome of having an establishment of the kind in the city, there is offered in this undertaking an avenue of investment which should increase in volume with the growth of the city. A formal prospectus has been filed with the Honorable Provincial Secretary of the Province of

Ontario. Additional application forms will be supplied on request by the undersigned:
