Oppose Compulsory Vaccination

Vaccination is not a sure preventive of smallpox, Vaccination is, in fact, more dangerous than smallpox.

When you allow your children to be vaccinated you are taking a terrible risk. You may cripple your children for life, inflict upon them some loathsome and incurable o rease or even accomplish their death in a short time.

And in spite of all these risks your child will not be proof against.

Come to Massey Hall Wed., Nov. 19--- 8 p.m.

Chairman: His Worship Mayor Church His Worship the Mayor has called a public meeting of protest against compulsory vaccination. We believe that 80% of the adult population of Toronto are opposed to compulsory vaccination. Let those who believe in vaccination be vaccinated. But why should any public official have the power to force it upon those who doubt its efficiency as a preventive and are positively convinced of its danger?

The trial of Geo. ge Wellington Kennedy, who is charged with manslaughter as a result of the death of Norman Lavoie, a returned soldier, after fight, was continued in the assizes before Chief Justice Sir William Mulock yesterday. When the court opened for hearing in the morning. one of the jurymen, John Hart of Georgina, a returned soldier with record in France, who is compelled to walk with a stick, was half an hour late.
