TWO BOATS BURNED.

#### High Jinks of the Gulf Stream.

New York, May 22.—Captain J. Lumesdame, of the Anchor Liner Astoria, from Glasgow, has found a reason for the cold weather. He says the Gulf Stream, which ordinarily has a range between 46 and 55 degrees north latitude, is away to the north, and he found for the Atlantic a high barometer with southerly wind, which is unusual.

"I don't say that the Gulf Stream is out of its margin," said the captain, "but it is to the northward of its normal course. This accounts for our winter weather home in Scotland, where we have been having snow every other day. V.e don't have the seasons we used to have."

When the Astoria was about 1,000 miles east of Sandy Hook on Saturday, she passed through a field of twenty icebergs. The 1cebergs were all medium sized, and were scattered over a wide
