FISHER INCIDENT MAY HAVE GRAVE RESULTS. Russia and Other Powers Waiting With Extreme Interest According to U.S. News Service. ST. PETERSBURG, April 3.—Russia and several other powers are awaiting with extreme interest the announcement of the attitude of the state department at Washington regarding the Fisher incident, as this issue affects not only the administration of Harbin and Chaiilar, but the entire question of the sovereignty of north China and south Manchuria. Fred D. Fisher, the American consul at Harbin, has consistently refused to recognize, or admit that he should have anything to do with the Russian administration of this territory and he has been firm in his assumption that he has been accredited solely to China, furthermore he has supported the protests of China against the establishment by Russia of municipalities in the railroad zone at Harbin and Chaiilar independent of the Chinese government and his attitude in this respect prompted Russia to seek an explanation of this course at Washington.
