

NVESTME

When you purchase a Series 18 Stude-baker FOUR or SIX you buy a car made in Canada by a permanent Canadian institution. There's a uniform price range that is the same to every purchaser. And every Studebaker owner is assured of always being able to obtain the necessary parts and replacements at lowest possible cost.

People who buy cars as an investment buy cars with a name back of them—like the name Studebaker. They buy them with a clear view of the ultimate return

Almost any car runs good and looks good, and is good, in its fresh new paint and shin-ing metal work when it is new; but consider it six months from now-a year from now, or two years from now—on this basis the Canada-built Studebaker is a sounder investment than any other car.

But come in and see the new Series 18 Studebaker cars—let us show you just why Studebaker leads the world in the production of fine cars at a medium price.

"Made-in-Canada" 40 H. P. FOUR.....\$1375 50 H. P. SIX.....\$1685 F. O. B. Walkerville.

BANK CONDEMNS LAVISH EXPENDITURES

The Canadian Bank of Commerce in monthly circular says: For the purpose of equipping and taining the Canadian forces in the field, large imports are necessary, out the unusual volume of imports at present time is attributable in an even greater measure to excessive private expenditures upon luxuries. Many fancy articles of food, not at all esential, are in great request at prices which are, in many cases, double and treble those of pre-war days. This is but one instance of those lavish personal expenditures which indicate that the Canadian people as a whole do not realize as clearly as they should the present extraordinary responsithe breath, extraordinary responses.

Wages and obligations arising from the war. Wages are high and provide a wider margin than usual above the cost of frugal living. This does not apply to the salaried class, but to that larger class which is receiving continuously advancing wages from the manufacture of war supplies. The to abnormal and the way in which it is being used is evidenced by the reis being used is evidenced by the regretably heavy expenditure upon nonscential imports. As evidenced by
the bank returns, and by purchases
of war savings certificates, high class
securities and life insurance, the savings of the people are above the average, but there remains a wide field
for still greater progress in these repects if the Canadian people would
but return to the more frugal habits
of former days. The provision of
money for the defence of the empire,
altho comparatively large, has not
yet strained the resources of the peo-

Canadian Prisoners Urve That Food Be Sent and Meeting is Being Held.

Canadian prisoners in Germany having appealed for a better method of fordwarding parcels of foodstuffs, of which they claim to be short, a meeting of their friends will be held in King Edward school, on Thursday night. At present, patriotic organizations and private individuals are not being allowed as formerly to send parcels freely. It is expected that those who have been engaged in this work in the past will be represented

WILL DIE FOR MURDER OF EMIGRATION OFFICER

Appellate Court Refuses Appeal by John Hogue for Stated Case.

John Hogue, alias Steward, will be hanged on May 10. The appellate division at Osgoode Hall yesterday refused to grant Hogue a stated case for the murder of W. M. Jackson, January 10, the court maintaining that the trial judge had fairly submitted to the jury the questions they had to deter-

mine.

Counsel for the prisoner appealed on the ground that the evidence of two witnesses taken at the preliminary hearing was put in at the trial. Hogue was arrested in Winnipeg and was being deported to the states where he was wanted for robbery. He was in charge of officer W. M. Jackson, and as the train, reached Windsor, Hogue drew a revolver from his pocket and shot Jackson. He also held up other passengers on the train and escaped, and was captured in a Windsor hotel. yet strained the resources of the peo-ple, ach successive national loan has a salutary effect in inducing the peo-ple. Each successive national loan has but forward with that object in view cannot but result in an added imand, was captured in a Windsor hotel.
Following is today's list for the
first divisional appellate court; Union Natural Gas Co. v. Chatham Gas Co. (two cases); Imrie v. Eddy; Mc-Dougall v. Smith.

KINDERGARTEN CLASSES

A report has just been issued by Chief Inspector Cowley, which shows that the total number of pupils enrolled in the various kindergarten classes up to March, is 6754. Of this number, seven are three years of number, seven are three years of age 248, 4 years of age; 3108, 5 years; 3054, 6 years; 318 seven years and 19 are 8 years of age. The requirements for these classes are for pupils from 5 to 6 years of age, but Inspector Cowley stated that the younger ones come with older children or by special request.

ton, has received his lieutenant's composite are given in the casualty lists of yesterday. Most of these are the result of the fighting for Vimy Ridge, where the Canadians won such distinction. Six officers and nive men have been killed, three men have died of wounds four are ill, and ten officers and fitteen men are reported wounded. Two privates previously reported as missing a new list of the transfer of the Forty-five names of Toronto soldiers are given in the casualty lists of yes-

Report Hopes Government Will Look After Such Cases in Future.

The annual meeting of the House of Industry, held yesterday afternoon, in the board room of the institution, was marked by encouraging reports and a very fair attendance. During the year the house had accommodated 259 inmates, which was a decrease of 78 over

confined to bed were mostly amongst the men of the institution.

Votes of appreciation were given the superintendent and Matron McLaughlin for their efficient work, and to the visitors and contributors for assistance rendered, and the regrets of the meeting were voiced at the deaths of F. S. Spence, late chairman of the board, and of Messrs. Jenkins and Scott, visitors. Sympathy with Rev. Crawford Brown in the death of his father-in-law, was moved by Rev. L. Minehan. Among those present were Rev. A. Hart, Rev. Rabbi Jacobs, and Messrs. Gavan, Hubbard, J. F. Patterson and D. Miller. Lady Falconbridge and Mrs. Brock Wilkins were appointed to the ladies' board.

Man Says He is Under Bond To Employer Not to Enlist

For having liquor in his possession, Edward Meager paid \$200 and costs into the police court exchequer yesterday, but when asked to enlist stated that he was under bond to his employer not to do so. The authorities will ascertain whether Meager's story is true by communicating with said employer.

employer.

The landlord of John Smith complained that John was drunk on his premises. Investigation led to the finding of two bottles of whiskey in John's possession. The discovery cost him \$200 and costs or three months.

WANT DATE OF UNION LEFT UNDETERMINED

Presbytery Believes Amalgamation on Specified Date Would Cause Division.

"Whereas it is believed that the consummation of union with the Meth odist and Congregational churches at the date specified by the last assembly would be followed by division and other consequences, injurious to the life and work of the church, it is humbly overtured the general assembly by the Presbytery of Toronto to take such steps as will in the judgment of the assembly avert such consequences; and to this end the presbytery suggests that the date of consummating the union be reconsidered and for the present be left undeter-

mined."

The foregoing overture was carried by 38 votes to 27 at the meeting yesterday of the Presbytery of Toronto, following a lengthy discussion. Adoption of the overture was moved by Dr. Jas. Ballantyne and Rev. J. W. Woodside, and Dr. Gandier and John Louden moved an amendment that the overture be transmitted. Considerable opposition was voiced against the time for union undertermined.

Allege Illegal Use of Patent By Manitoba Flour Millers

this year was set by S. Samuel, head of the well-known wholesale metal firm, Samuel, Benjamin & Co. All of the staff, both office and mechanical, have been requetsed to go on a farm for a period of three weeks this summer, and all have expressed their willingness to go, in fact, the first division started the country life on April 16.

This firm has always been one of the first to take up any patriotic enterprise or Dominion-helping plan, and it is expected that many other firms will follow the example set.

THE BEST WAY TO CARRY

Testimony was opened yesterday in the case of the Alsop Process Co. of Canada, Limited, against J. P. Fuesen & Son, flour millers, of Gretna, Manitoba, in which the plaintiffs seek \$25,000 and an injunction to restrain the defendants from using what it is alleged is theirs by right of patents. Justice Sir Walter Cassels of the Exchequer Court of Canada is conducting the case, and additional interest is given it by the presence of Dr. Harvey W. Wiley of Washington, noted food expert, who will testify.

John and Sydney Andrews, of Belfast, Ireland, it is claimed, were inventors of a process for ageing and

ventors of a process for ageing and bleaching flour, for which a patent was obtained in Canada. These patents were issued, it is said, to various companies, including the plaintiffs. The defendants are alleged to have used the patents illegally. They claim that the alleged invention is inoperative.
