IOM. STEEL STRONG

The Toronto Stock Market held its own yesterday in the matter of prices, but trading was somewhat concentrated, the issues primarily under consideration being Maple Leaf and Steel Corporation. The former made a further high at 109, then worked within a narrow range and closed near the top. Dominion Steel was well bought all day without estentation and closed at the high, 60 1-2. The movement in such issues as Republic Steel on Wall street is pointed out as an indication of what might happen in Dominion Steel, should speculation break out in the shares. Steel of Canada holders are again dissatisfied in the matter of dividend and some liquidation of the stock occurred. A little trading in Penman on this market was occasioned by the rumor of a bonus with the next quarterly dividend. Steamships and Brazilian had fair business, but showed no buoyancy. The attractions of the New York marare taking most of the local speculative interest and not until this subsides is it expected that the Toronto market will run into any active trading.

Spanish River 91

Spanish River 97% yesterday. The annual report of the directors and the financial statement for the fiscal year ended June 80, 1916, already published, were approved, and the officers and directors were re-elected without change. The improvement in the company's position was favorably commented on at the meeting, and reports as to present conditions are satisfactory, the company having no difficulty in its finding a market for product at satisfactory prices. The labor outlook is one of the few clouds on the horizon, difficulty in keeping up the output being feared as a result of the scarcity of first-class men. The company, as has been previously announced, deforred bond interest for 1915 and 1916 until 1922.

ENGINEER GONE NORTH TO INSPECT ATLAS

A. M. Bilsky will leave tonight for the gold mine at West Shining Tree. He has taken along a prominent Por-cupine engineer for the purpose of in-He has taken along a prominent Porcupine engineer for the purpose of inspecting the company's properties and advising as to the construction of a mill. The mill will probably have a capacity of 50 tons a day at the start, and it is the intention to take in this and other plant as soon as the freeze-up takes place. The Ontario Government have already constructed a road about 20 miles into the Shining Tree country, and it will be extended six miles to the Atlas mine. An underwriting syndicate of New York, Toronto and Montreal capitalists has subscribed \$100,000 to the company's treasury and work will now be vigorously pushed.

DOMINION STEEL A LEADER.

Increase, \$1,019,580.

Censolidation MAY

BE WORKED OUT

Boston—Dominion Steel shares have recently manifested considerable strength on the Montreal exchange. This company is producing record earnings and has already begun to utilize them to reduce bended debt. It has been decided to call on Dec. 31, \$3,406,667 of five-year six per cent. notes not due until Dec. 1, 1918. These notes will be paid from cash on hand, thus reducing bonded debt from \$25,751,000 to \$22,345,000.

Dominion Steel has a modern steel influx of visito the largest in years.

WHEAT RESUMES UPWARD TREND

Sharp Advance Follows Reports of Crop Damage in Argentine.

DISCOUNT GREEK NEWS

Chicago Dealers Contend Action Will Facilitate Breadstuff Buying.

CHICAGO, Sept. 28.—Assertions that irreparable drought damage had been done in Argentina, carried the wheat market sharply up-grade today regardless of reports that Greece had foined the Anglo-Franch allies. The market, altho unsettled at the close, was 21-8c to 23-8c net higher with December and May both at \$1.54 7-8. Corn gained 1-2c to 11-3c and oats 1-4c to 3-8c. In provisions, the outcome ranged from 5c decline to 40c advance.

Notwithstanding that at the outset wheat, prices, responding to the news about Greece, took a quick downward swing, the buils soon regained control and then lifted the market without any subsequent material check. It was contended by some authorities that the action of Greece had been largely discounted in advance and that bne effect would be to facilitate North American breadstuff purchasing for her accounts. In any event the interest of traders turned chiefly to the crop situation in Argentina, where predicted rains had failed to appear and where latest advices indicated that whether moisture came now or not the yield would be seriously curtailed.

Exporters were more active buyers of wheat than was the case on the previous day. One of the incentives to foreign as well as domestic buying was gossip that, altho threshing in the northwest had been virtually completed, the movement from fest hands was extremely light and that farmers in the spring wheat region appeared to have adopted a holding policy despite the urgent demand for flour.

Big charters of lake vessels for immediate loading helped to give strength to corn. The market was also bullishly affected by continued wet weather in the domestic belt and by Argentine damage reports? Oats derived strength from the action of other cereals. Demand was principally from sherts.

Month-end evening up of trades made provisions average higher, the most notable bulge being in September pork which advanced 40c to the highest level this season.
