

BIG STEEL PLANT MAKES PROGRESS AT ASHBURIDGE'S DAY

Chairman of Baldwins, Ltd., Tells Shareholders of Future Enlargement.

PLAN SIXTEEN MILLS

London, Feb. 20.—The ever-growing participation of leading British manufacturing corporations in the industrial development of Canada is again demonstrated in a recent statement made by Sir John Roper Wright, Bart., chairman of Baldwins, Limited, the big English firm of engineers.

Addressing the shareholders at Birmingham Sir John said that he was pleased to be able to say that Baldwins' enterprise in Canada was proceeding satisfactorily and had now reached the manufacturing stage.

They had held, he well known, a very valuable and long-established connection in Canada for their various products, and in order to retain that connection it was necessary, owing to the ever-increasing American competition in that market, to consider means of combating it.

Therefore, when it was brought to their notice by their agents in Canada that the site and plant of the British Forgings, Limited, at Ashburidge's Bay, Toronto, was for disposal they decided after careful consideration and investigation to enter into negotiation for the purchase which was completed at the end of May, 1919.

The works as then existed comprised, in addition to machine and pattern shops, etc., a most modern and well equipped foundry which proved of great assistance to them in the manufacture of various castings required during the construction of the rolling mills. They have also a battery of ten electric furnaces, some of which are being utilized for the manufacture of steel castings.

Will Have Sixteen Mills. "Four out of the eight mills we have put down are engaged in the manufacture of black and tin plates and galvanneal sheets," Sir John Roper Wright said.

"We have been assisted and encouraged in every way by the Toronto city authorities and the largest consumers of such products as we intend to produce, who recognize the importance of establishing such an industry, and thus ensuring supplies at short notice. We are not yet providing our own steel bars, but it is our intention to do so eventually.

"We have made a very promising start, and can now confidently look forward to not only retaining, but considerably expanding our trading operations in the Dominion.

The establishment in the Dominion of a big concern in the magnitude of Baldwins, with a working capital of \$4,000,000, is a matter of great importance, and it is a matter of which the Dominion of Canada is justly proud.

It is beginning to be anticipated in British shipping circles that the American government, having shot its shipping arrow at the world, and its having proved a somewhat harmless missile despite the amount of "talk" with which the arrow was accompanied, United States control of the shipping will fade into oblivion, and that their government fleet will ultimately pass into the hands of private owners.

LITTLE ANXIETY NOW FELT FOR CARUSO

New York, Feb. 20.—Enrico Caruso watched the falling snow that blanketed New York today from a window near his sick bed and with the yearning of a school boy with the measles declared, "It looks fine."

While the tenor as enjoying the sight, his physicians issued a bulletin indicating his continued improvement. His family also planned to take him from the city as soon as he recovered sufficiently to leave the hotel.

The bulletin issued by the physicians remained conservative, but indicated that no great anxiety was felt for the patient.

ACCEPTS CALL TO COBALT. Cobalt, Ont., Feb. 20.—Rev. L. H. Young of Massey has accepted an invitation to become rector of the James' Anglican Church here, succeeding Rev. H. A. Sims, now of Port William.

CONSERVATIVE BANQUET to the HON. G. HOWARD FERGUSON, K.C., M.P., Provincial Conservative Leader. CARLS-RITE HOTEL, FRIDAY EVENING, FEB. 25th, 8 p.m. TICKETS—\$2.00.

WILL RAISE LOAN TO AID PALESTINE

Sir Alfred Mond Says Possibilities of the Country Are Immense.

London, Feb. 20.—As soon as Great Britain's Palestine mandate has been submitted to the League of Nations an effort will be made to raise a loan for development of that country, which is regarded as having great possibilities, according to Sir Alfred Mond, commissioner of works, who recently returned from an official visit to Palestine.

Sir Alfred declared the enthusiasm of the Jews for reconstruction of their national home was unbounded and Jews were walking from all over Europe to the Holy Land, their journeys sometimes requiring as long as eleven months.

The possibilities of Palestine, both agriculturally and consuming countries, are immense, he said, but pointed out that Palestine suffered much during the war and many of its most fertile tracts now resemble a desert. The cost of living in Palestine has risen 500 per cent.

Sir Alfred declared, adding that the country is in need of everything, including all forms of machinery. Sir Alfred stated that the authorities were convinced of the existence of oil and coal in Palestine and actually knew that phosphate and asphalt were there.

Georgians by Thousands Flee Before Bolsheviks

Constantinople, Feb. 20.—The situation in this, the capital of the republic of Georgia, is reported today as being more quiet. Thousands of persons are said to have been fleeing for their lives before the advancing Bolsheviks in Georgia.

CAPT. WALLACE, M.P., PNEUMONIA VICTIM

(Continued From Page 1). at the time of his death was in his 42nd year. He was educated in the Woodbridge Public School and the Woodbridge High School, and in business life was associated with his brother, Leonard, in the milling industry, the Woodbridge flour mills having for years been in the possession of the family. The Wallace Bros. likewise conducted a large general store in Woodbridge and were extensively engaged in farming. Capt. Wallace had 1909, winning a medal with three bars at the college of Partridge and DeLafayette.

Prominent Orangeman. Capt. Wallace was worshipful master of N. Clarke Wallace L.O.L. No. 23 and district master of Vaughan Lodge and county master of Woodbridge and of the Grand Orange Lodge of British North America.

The late member for West York, survived by three brothers, Charles, Leonard, and James, of Woodbridge, James, a barrister, of the city of Toronto, and N. Clarke, student at the University of Toronto. Three sisters also survive, Mrs. Dr. O. J. Little of Toronto, Mrs. Belinda Olive on the homestead.

Funeral Arrangements. The body was last night removed from the undertaking rooms of Wilfrid Speers on West Dundas street to the late captain's home, north of the village. The funeral will be held on Tuesday afternoon at 2.30 from Hall and subsequently to Chislehurst Church Cemetery. The services will be under the auspices of the Orange Order.

The death of Captain Wallace creates a vacancy in the federal constituency of West York and following the news of the member's death, which was everywhere received with deep regret, speculation was rife as to his successor and the probable action of the government at Ottawa.

The constituency, as at present constituted consists for federal purposes of the villages of Mimico and New Toronto, the Township of Vaughan, including Woodbridge, the Township of York lying west of Ward Seven in the city of Toronto and south of the more northerly boundary of Ward Seven, Northland avenue extended, near thru to the Humber River, the town of Weston and Ward Seven of the city of Toronto.

More than a year ago the United Farmers of West York nominated a candidate for the federal house in the person of ex-Warden James A. Cameron of West, and the latter since that time has been quietly pushing his campaign in the highways and byways of the riding. But no election may be held until after the present session of parliament and there may be quite a rivalry among the supporters of the Meighen government and Charles Leonard Wallace, brother of the late member, warden of York County, and reeve of his native village, may be a candidate and last night his name was freely mentioned in connection with the vacant constituency.

Regret at Ottawa. Ottawa, Feb. 20.—(By Canadian Press).—The death of Captain Thomas Wallace, removes another staunch supporter from the ranks of the government. Captain Wallace was a familiar figure in the house of commons and acted as one of the government whips. He was not a frequent speaker in the house, but a regular attendant on the sittings. His death leaves another constituency unprotected in the house, in addition to the constituencies of Yamaska and York, N. B.

SNOW IN NEW YORK CRIPPLES TRAFFIC

Eleven Inches Already and Railway Lines Are Badly Disrupted.

New York, Feb. 20.—The belief held by many that the winter climate of California had moved to the eastern United States was rudely dispelled early today when the first important snowstorm of the season descended upon New England, New York and the eastern states generally. Tonight, with eleven inches of snow officially recorded, the storm was still in progress, and the forecast was "more snow."

Tonight 7000 men were at work in this city alone endeavoring to keep the main arteries of traffic clear. Surface and elevated traffic was badly disrupted from early morning, many lines having discontinued the struggle entirely. Trains arriving in New York were reported fairly well on time, as the centre of the main business in New York city and vicinity, other districts reporting much lighter snowfalls.

Fourteen tractors, known as "snow tanks," were pressed into service for the purpose of dragging the snow-plows in the main traffic thoroughfares of the city. By afternoon they had succeeded in converting Broadway above 42nd street into a miniature canyon between high walls of snow.

Thru this trench work of snow traveled an endless procession of automobiles filled with sightseers. The snow was asserted and shipping was at a standstill. Early in the day the United States shipping board steamship Col. D. Harbor, went aground off Coney Island. The vessel is in no danger.

In Other Centres. In Albany where a street car strike is in progress the United Traction Company managed to keep all its lines now being operated clear despite a heavy snowfall. The only disturbances reported during the day were the breaking of wires on the Long Island railway in two cars. Poughkeepsie reported a bad tangle of traffic tonight due to the storm.

In western Massachusetts traffic in rural and part of suburban districts was paralyzed. Only a few of the trolley lines in Springfield were running tonight. In Boston the snow was light and dry, and tonight transportation had not been seriously hindered, but the falling snow was reported to be breaking up wires on the Long Island railway in two cars. Poughkeepsie reported a bad tangle of traffic tonight due to the storm.

Points in the state of Pennsylvania reported a snowfall of sixteen inches with twenty inches in some of the mountain sections. Branch lines of railways were having serious trouble keeping traffic moving.

Deep Snow in Pennsylvania. Philadelphia, Feb. 20.—Eastern Pennsylvania, southern New Jersey and Delaware reported a fall of snow of the first real snowstorm of the winter. Starting at 11 o'clock Saturday night and driven by a cold wind from the north, the storm continued thruout the day and late tonight was still raging, delaying traffic and impeding shipping. Some upstate towns reported two feet of snow. Seven inches fell in Philadelphia.

The storm was particularly severe in the maritime coal regions, Hazelton reporting a fall of snow of 18 inches. Delaware breakwater reported a 54 miles an hour gale. A number of ships were anchored in the harbor waiting for the move.

Five Deaths Reported. In Nassau county, on Long Island, Hempstead and surrounding towns three persons were completely isolated. All trolley service was stopped and the wires are down, it was not expected service would be resumed for several days. Telephone wires also are down. The Long Island railway reported also was put out of commission. In some parts of the country, the snow fell in a heavy night, deep. Up to late tonight, five deaths in New York, directly and indirectly caused by the storm, had been reported. Two boys and a woman were killed in snow shovels in their hands. Another man lost his life when he attempted to cross a snow-drifted beach in Staten Island and a woman was killed in a Brooklyn subway station, when ice on her shoes caused her to slip and fall in front of an approaching train. The fifth person was a Brooklyn policeman who stepped in front of a street car while temporarily blinded by the storm. He died later in a hospital.

Only two heavier snowfalls for a single day have been recorded in New York city since 1888.

Passenger Vessel Wrecked And One Person Was Drowned

Mexico City, Feb. 20.—The steamer Lucero del Alba, with seventeen passengers and a crew of eight, was wrecked yesterday at the entrance to the Bay of Vera Cruz. One person was drowned and the others were rescued with difficulty, according to the accounts of the disaster from Vera Cruz. The vessel sailed from Campeche and was caught in a storm, which drove her into port.

CHILD BURNS TO DEATH

St. John, N. B., Feb. 20.—Dorothy Hays, six years of age, was fatally burned on Saturday when her clothing caught fire while playing with a stove at her home at Gouth Bay, a suburb of this city.

FRENCH ARE FIRM FOR REPARATION

(Continued From Page 1). tially pacified, according to General Gouraud, commander of the French army in the near east. The situation in Cilicia promises prolonged trouble.

General Gouraud who came to London with the French commission, considers that France could now wish to reach an agreement with the Nationalists under Mustafa Kemal Pasha.

France now has 80,000 men in Turkey, but if the war is to continue there another 400,000 men probably would be required to finish the campaign. The French cabinet does not desire to spend any money in Turkish mandates and prefers to reach an agreement with the Nationalists under Mustafa Kemal Pasha.

Adjustment, Not Revision. The two "revisions" to be carefully avoided, according to the Sevres treaty, on the ground that to revise any treaty tends to render less permanent and solid all post-war treaties. Instead of revision the word "adjustment" to fit changed conditions or the modification of certain articles of the treaty will be used.

Since M. Venizelos, the former Greek premier, has arrived at an understanding with the Greek cabinet, also is said to have come to an understanding with Mr. Lloyd George to save all, or as much as possible, of the Sevres treaty. It is expected to retain all of her newly-acquired territory.

M. Venizelos asserts that the Greek army can complete a "victory" over Greece without calling on the allies for more money or more troops. He asks why, therefore, Greece should be asked to accept a "victory" which is really realized, and when its fulfillment is in sight. Mr. Lloyd George is said to have accepted broadly this opinion, but the conference is likely to prove a dominating personality in the settlement of the future of the Turkish empire. Count Storza, the Italian foreign minister, has been reported as leaning toward their point of view.

Conference Opens Tomorrow. With the exception of the representative of the conference, who did not leave Rome until Saturday night, the delegations of all the powers to the near east conference which began Tuesday night in London, are now in place. The conference is likely to open Tuesday morning, there is a possibility of a postponement, as the difference of opinion between the British and the French is likely to be a new deal, but it is being carried out very much on the lines of the old one.

A good deal of discussion is also occurring regarding the proposed name of the new corporation. In Canadian circles the opinion is that it would be better to abandon the Empire title and have the new corporation known as the Dominion Steel and Coal Corporation. The British interests, however, are still clinging to the title of the British Empire Steel Corporation. It is thought they are taking this view because they are hoping to make the long ago become null and void.

In other circles, the opinion is entirely different, and one of the interested parties will say: "We are working quietly ahead. The conditions that have made for postponement are outside of the deal altogether, and while certain changes are necessary, we hope to have our proposals ready in the near future. Of course, there will have to be a new deal, but it is being carried out very much on the lines of the old one."

SEEK INCOME TAX FORMS. Twenty thousand citizens have visited the assessment department at the city hall this week in connection with their annual income tax. They have until next Friday to get tax forms and fill them in.

Greeks and Turks to Confer. The hope is expressed that the Greeks and the Turks will hold a round table conference before the opening of the general sessions in an effort to smooth out their differences, a task which everyone realizes is most difficult. The Greeks, who have the support of the former premier, M. Venizelos, who has come to London to aid the delegation, have their proposals ready for submission to the conference.

They are assured the powers that if their request for enforcement of the Sevres treaty is granted and money is provided, they are prepared to be able to carry out their part of the treaty, including a campaign against the forces of Mustafa Kemal Pasha, the Turkish Nationalist leader. The chief of staff of the Greek army on the Smyrna front has come to London with a detailed proposal to keep the Turkish army from doing this.

Germany Must Meet Demands. Paris, Feb. 20.—Former President Poincaré, in a signed message to the Temps today declares that Germany must meet the demands made upon her by the reparations commission. The fifth person was a Brooklyn policeman who stepped in front of a street car while temporarily blinded by the storm. He died later in a hospital.

Only two heavier snowfalls for a single day have been recorded in New York city since 1888.

Not in Conciliatory Spirit. A despatch to the London Times from Rome dated Saturday says that before departing for London Saturday night with the Angora delegation, Bekir Sami Bey, Turkish foreign minister, had been invited by the government, thru the Italian government, to attend the near east conference. Although the despatch on equality with the Constantinople delegation, says the despatch, it cannot be said that they will go in a conciliatory spirit.

COMMUNISTS ACTIVE IN GREATER BERLIN

Berlin, Feb. 20.—Increasing reports from all sections of Prussia, where elections are being held today, indicate that the balancing is going on without disorder. Less than 70 per cent of the voters cast their ballots. In Greater Berlin the Communists were very active, their propaganda being mostly in evidence in the northern and eastern wards and industrial suburbs.

STEEL-SHIPPING MERGER EFFECTED

(Continued From Page 1). but said that other meetings would have to be held. As to the Halifax Shipyards Company, he said it would hold a meeting early in the week, and he had no doubt the company would authorize its portion of the amalgamation.

Morden is Pleased. London, Feb. 20.—(By Canadian Associated Press).—In an interview with the Canadian Associated Press today, Col. Grant Morden, who has taken an active part in promoting the British Empire Steel Corporation, stated that the agreements constituting the corporation had been cancelled and new arrangements had been made, the terms of which would be announced by the presidents of the Dominion Steel Corporation and of the Nova Scotia Steel and Coal Company.

The larger objects of consolidation, "The larger objects of consolidation," Col. Morden, "will all be attained on somewhat different lines than those previously announced. The Canada Shipyards Lines, Limited, if not included in the merger, will closely cooperate in transportation."

Street Was Puzzled. Montreal, Feb. 20.—The Financial Times, in an article written prior to the merger announcement, says: "The stories from time to time regarding the so-called British Empire Steel deal. One day a director of Dominion Steel Corporation will come down into the street, and if mention is made of the deal, he will state: 'The whole thing is absolutely off; there is not a chance in the world of it ever coming up again. Every part of the deal has been dropped, and the shareholders of the different companies have become null and void.'"

In other circles, the opinion is entirely different, and one of the interested parties will say: "We are working quietly ahead. The conditions that have made for postponement are outside of the deal altogether, and while certain changes are necessary, we hope to have our proposals ready in the near future. Of course, there will have to be a new deal, but it is being carried out very much on the lines of the old one."

TWO GERMAN WAR CHIEFS ARE DEAD IN BERLIN

Berlin, Feb. 20.—The death is announced of two German war chiefs, General Hans von Boehm and General von Meck.

General von Boehm during the recent war was known as the German "retreat specialist." As commander of the German eighth army he withstood the brunt of the allied pressure in the Marne salient, and in August, 1918, was appointed to the supreme command on the Somme front.

When, in December, 1918, a plot was discovered in Berlin to restore imperialism and secure the return of former Emperor William to the throne, General von Boehm, together with Field Marshal von Mackensen and General Count Sirt von Arnim, was discovered as among the chief men behind the movement.

General von Boehm was born in 1858 and entered the army in 1874.

ALL IN READINESS FOR THE TRIAL OF REV. J. O. SPRACKLIN

Expect Windsor Jury to Bring in True Bill on Charge of Killing.

BRACKIN TO DEFEND

Windsor, Ont., Feb. 20.—With A. Munro Grier, crown prosecutor, on the ground, staying as a guest at the Essex County Golf and Country Club, and Sir William Mulock, K.C.M.G., who will preside, awaiting trial during the evening, all is in readiness for the trial of Rev. J. O. L. Spracklin, pastor of Sandwich Methodist Church, for the killing of Henry Trumble, proprietor of the Chapel House, on the morning of November 6, 1920.

Case is Chief Topic. Probably no case has ever aroused so much interest in the border cities as has the Spracklin trial, and the chief topic of conversation about the streets today is conjecture as to the outcome of the case. The announcement that the court room would be closed to the public during the progress of the trial came as a surprise to the citizens and caused no little disappointment among many who had been planning to sit thru the case, drawn by the curiosity that invariably brings crowds to a trial of importance such as this.

Among certain classes there is a well-defined opinion that the case will not come to trial at all, the conjecture being that the grand jury will bring in no bill, but the general opinion is that a true bill will be brought in and the pastor called to stand trial.

Court Opens This Afternoon. The court will open at 1.30 p.m. tomorrow, when the deliberations of the grand jury will begin, and it is practically certain that the Spracklin case will be the first called. The expectation is that the case will be called Tuesday morning, and the crown number of witnesses called makes it certain that the proceedings will last at least two days, if not longer.

Mr. Spracklin did not preach in his church today, and he could not be reached. It is understood that he is conferring with his counsel, R. L. Brackin, M.L.A., of Chatham.

ROBBED OF PANTS CHASED FUGITIVE

When Negro Was Disrobed Man Hired of Comparison New York, Feb. 20.—Of his pants, shoes and worst blizzard of the year, the determination may be that the negro, who was partially disrobed him at a street here early today.

Sparely clad, the negro, who was partially disrobed him at a street here early today. The police joined the negro, who was partially disrobed him at a street here early today.

The negro was caught, his trousers, shoes, shirt and hat before accompanying him to his prisoner to the police station.

WILD HEARST HAS BEEN EXAMINED

No Cruiser Sent to Because of Deception of Royal Bank San Salvador, Republic of El Salvador, Feb. 20.—(Despatch).—A report that the British Cambrian had been sent to the coast of El Salvador because of the failure of the government to pay the debt of the government by Royal Bank. It is said the Cambrian had no dealings with the bank, but was made to believe that the bank was to receive Capt. Blake, naval attaché of the British Legation in Washington, who was received by President Meléndez, minister and is said to have expressed his pleasure at the news. The Cambrian, it is stated, came to Salvador friendly visit.

The reports denied in despatch were circulated news service during the January.

SHOULD APPOINT TO MANDATE CO

London, Feb. 20.—Appointment of women on the commission of the League of Nations' union with a letter from the League asking that the matter be held in the hands of the League. The letter says that the increasing need for countries which are to be trained, as enumerated in the League of Nations' union, and human working out preventive and remedial respect to health of native populations. Copies of the letter to Mr. Lloyd George, Secretary of the League of Nations, and Arthur J. Balfour, Secretary of State, were sent to the British Legation in London.

SUSPICIONS IN STEEL

Added Serious Charge Father Whose Family is Disfranchised in F

REPORT THREE

Moncton, N. B., Feb. 20.—(Despatch).—A preliminary examination of the King vs. O. Gaults & Co. with the murder of his children, whose bodies were found in the debris of their business premises on Tuesday night, was continued on Wednesday.

The most important prosecution was given by the Crown, who stated that the accused, Curtis Stead, alleged that his mother had been guilty of his death, and that his sister had been guilty of his death. His father, who was charged with the murder of his children, was also charged with the murder of his children.

Charge Threat of His father, the wife in Moncton some time ago, the fire, getting ready to start, his sister, Curtis Stead, alleged that his mother had been guilty of his death, and that his sister had been guilty of his death.

When he was home from the fire, the wife told by his mother, better not stay as he was very angry with him, as he caught the boys at the fire, he burnt them out.
