

## DIES SOON AFTER FALL FROM TREE

Boy Lives For Three Hours  
—Death Attributed to  
Punctured Lung

Murray MacKenzie, 16 years old, son of Mr. and Mrs. Charles MacKenzie, of Lingley Station, near Westfield, was killed yesterday afternoon in a fall from a tree he had been climbing near his home. He lived for about three and one-half hours after the accident. It was thought that death resulted from a punctured lung although he had injuries also on the head and had a broken wrist.

The young fellow had been very fond of climbing and was part way up a tree in an orchard near his home yesterday when his hold slipped and he fell to the ground. He was missed by Miss Gertrude Bayard, who was keeping house in the absence of the boy's mother and father, who were in Ontario on a vacation begun a week ago last Saturday.

She started out to look for him and met him on his way home through a field. His head was badly cut and he had other injuries. Dr. Jack of Glenwood, was called to the house but was unable to save the boy's life. The opinion was that, although the scalp was cut badly, the lad's skull was not fractured and death was probably due to internal hemorrhages. It was thought that his lung had been ruptured by the force of the fall.

The young fellow was able to talk and told those in the house with him that he had not been very far up the

tree and had not fallen directly to the ground but had slid down the trunk. Mr. and Mrs. MacKenzie had left on a holiday trip on Saturday, Oct. 4, and were due home at the end of this week. Miss Bayard, of Westfield, was keeping house at the time of the accident.

Murray was the only child living, his brother, Errol, having been killed a few years ago at school when he was struck on the head by a stone thrown by another boy. Mr. and Mrs. MacKenzie will receive the deepest sympathy of their friends and acquaintances in their sad bereavement.

St. John Worker in W. C. T. U. Honored

Presentation of Handbag to Mrs. Seymour in Campbellton.

Campbellton, N. B., Oct. 15.—A suggestion that a new health reader with sections devoted to anti-narcotic propaganda and scientific temperance should be introduced into New Brunswick schools was made at the morning session of the annual convention of the Women's Christian Temperance Union of New Brunswick and Prince Edward Island today and in the evening session Rev. Thomas Marshall, secretary of the N. B. Temperance Alliance, gave an address on "Government Control of Liquor Sales."

The morning and evening sessions were held in the Methodist church with Mrs. Edna Bruce presiding. A pleasing incident of the morning session was the presentation of a hand mirror and handbag to Mrs. Mary Seymour, of St. John, superintendent of evangelism. Mrs. L. O'Neill, in making the presentation on behalf of the union, referred to the faithful and untiring zeal of Mrs. Seymour as a member of the W. C. T. U. for 40 years and spoke also of her earnest endeavors for moral reform. Although taken by surprise, Mrs. Seymour gracefully thanked the donors. The opening devotion were led by Mrs. Edgar Cook, assisted by Rev. Mr. Godfrey, pastor of the church.

At the evening session Rev. Mr. Campbell led the devotionals and gave an inspirational address. Mr. Marshall, in his address, enumerated steps which he said had been taken by the Government in preparing the way for Government control of liquor sales. He expressed the belief that the Government had deliberately and purposely neglected to enforce the prohibitory law and in that way to discredit it in the minds of the people. A Government that had failed so lamentably to enforce the existing law he did not think could expect to be entrusted with more.

He referred to the places where Government sale had been tried and declared that it had failed in each instance. Mr. Marshall recommended the W. C. T. U. to organize its voters and prepare for the coming election, seeing that good candidates were nominated for both parties. He urged the members to serve notice that unless candidates were in favor of prohibition they would not receive the vote of any W. C. T. U. member.

Hydro rates, which established a new, low rate record for St. John, are not based on competition. They were established to give consumers the current at cost. The hydro rates have brought electricity within reach of all classes. Hydro rates have increased consumption of electricity and created new business.

Moncton and Fredericton have petitioned the utilities' board for rate reduction on electrical energy, owing to the example and success of the St. John system which is the admiration and envy of Halifax.
