Mr. H. C. Schofield, Engineer Hall, market for B. C. boxes, using, as it Mr. W. E. Scully, M. P. P., Mr. Thomas Nagle and Mr. W. F. Burditt, report that the way of progress lies along the lines of the tri-partite agreement. They urge that the agreement be brought into effect to secure facilities which they set forth as necessary, following a comprehensive survey of the harbor. These facilities in casy competition with American and British firms. In short, the Atlantic clude the breakwater, more plers as required, grain conveyors to all existing piers on the west side, a passenger dock, a pier at Reed's Point and a harbor bridge.

Mr. W. E. Scully, M. P. P., Mr. does, húndreds of thousands of containers are does, húndreds of thousands of containers are tainers each year to pack its famous apples. Barrels as apple containers are out of date because they are out of favor with the housewife. With the agreement. They urge that the agreement agreement. They urge that the agreement be brought into effect to secure facilities which they set forth as necessary, following a comprehensive survey of the harbor. These facilities in easy competition with American and British firms. In short, the Atlantic coast and the Pacific coast are now in a position to do business with each other on the same basis that each harbor bridge.

How I miss them round the chimney corner here.

Back again in the dear homeland with the following amazing dialogue is reported by the Toronto Telegram as having taken place before Magistrate Cohen in the Women's Court:—

Pelch blamed the trouble on bootleg the town the Women's Court:—

Pelch blamed the trouble on bootleg alcohol. "Go into the witness box and tell the Crown the place on Walton street where you get the stuff which poisons men," directed Defence Counsel Tom O'Connor. But, strange to say, that information was not required by the Crown.

We dan't want to know that," said the Magistrate and Crown Attorney in the fellowork of the following amazing dialogue is reported by the Toronto Telegram as having taken place before Magistrate Cohen in the Women's Court:—

Ba

would be first proceeded with, and the others would follow in due time.

Country."

Country."

Country."

The Sun evidently believes that care of the sun evidence.

Mr. O'Connor became indignant.

Mr. O'Connor became indignant.

Mr. O'Connor became indignant.

Mr. O'Connor became indignant. Under the tri-partite agreement the west side improvements are provided the St. John Board of Trade. It wants west side improvements are provided for, unless that agreement is a scrap of paper. The citizens generally will doubtless endorse the reports of these two committees, who have given the set of provided formation. Some day murder's going to be done, unless these places are cleaned up."

Is justice in Toronto deaf as well as blind? months of study to the subject with esting developments.

periment by means of new coking the plight of her daughters, one sevenovens constructed by the gas com-pany at Hamilton and will treat coal months old. The three were enroute

plants would make possible an extensive use of bituminous coal from the Maritime Provinces. Distillation of the Maritime Provinces. Distillation of the Maritime Provinces and the Maritime Provinces are the Maritime Provinces. Distillation of the Maritime Provinces are the Maritime Provinces and the Maritime Provinces are the Maritime Provinces. Distillation of the Maritime Provinces are the Maritime Provinces are the Maritime Provinces are the Maritime Provinces. Distillation of the Maritime Provinces are the Maritime Provinces are the Maritime Provinces are the Maritime Provinces. Distillation of the Maritime Provinces are the Maritime Provinces are the Maritime Provinces are the Maritime Provinces. Distillation of the Maritime Provinces are the Maritime Provinces a the coal would provide such useful byyond the bounds of the city. His alproducts as gas and benzol. The coke at prices at which it would compete name. He will be greatly missed by with anthracite. Coke gives great heat without emitting objectionable smoke, and it burns to a fine ash without elinkers. It requires, for its economical use, rather more expert handling than anthracite, but it is an excellent domestic fuel. It is well that the experiments should be made, because it would be a good thing for Canada if some of the money now sent to the United States to pay for coal could be kept in circulation in the Dominion. kept in circulation in the Dominion.

Moreover, it is the part of wisdom to make such tests while coal is plentiful and not to forget that the present poke up whatever Government is in the most mordant, whose melodies are the most mocking, whose voice best carries invective, is adjudged to have right on his side. What more is needed to prove that the Eskimos are ruled by the loftiest ideals of civilization? agreement between the anthracite power at Ottawa to get (but do we

Venizelos has been to assure Turkey that Greece desires to co-operate in carrying out the terms of the Lausenne treaty. Therein he displays wisdom. His Government has been recognised by Britain. A brighter era for Greece seems to have dawned, whether the monarchy be retained or a republic declared. M. Venizelos is the man of the hour.

Today's London cables indicate that there is a disposition to give a Labor Government a fair chance so long as it does not attempt class government.

WOULD TRADE WITH US.

Paterson, Mr. Allan McAvity and Mr. via the Panama Canal, and also between that province and the Eastern tween that province and the Eastern that it is a support of the States. It says that "for the first time in her history, Canada is now, by virtue of the Panama canal, and the appointment of a customs officer at New York, which opens the canal to Canadian business, an economic trading a winter port depend upon the existence of conditions which will hold the interior Canada off from natural sea outlets"; and adds that "for the first time in her history Canada is able to influenced by national considerations in intercoastal trade." Going into the list time to and end in July, 1922, when Dr. Sun Yat Sen was compelled to seek refuge in Shanghai. After much manoeuvring he secured the support of Yunnanese and Kwangsi troops and by May, 1923, was re-established at Canton. His authority there, however, has been small since the military leaders have kept the power in their own hands. In fact it seems that his popularity, at one time great, has waned and there is an impression that he is being used by the Yunnanese troops who have no object but plunder. It is their influence that is supposed to be behind Dr. Sun Yat Sen's threat to seize the Canton Customs.

The Canadian province and the Eastern pelled to seek refuge in Shanghai. After much manoeuvring he secured the support of Yunnanese and Kwangsi troops and by May, 1923, was re-established at Canton. His authority there, however, has been small since the military leaders have kept the power in their own hands. In fact it supports the military and by the existence of modern, econo- in intercoastal trade." Going into the His threat has been rendered abor-

Another committee, composed of Scotia will be developed into a great has been doing business outside the the Magistrate and Crown Attorney in

no other purpose than to advance the interests of the port. They deserve to be commended for their work. If the whole city gets behind them there should be ground for hope of definite results.

The Municipal Council deserves to be heartily commended for its grant of \$2,000 to the Health Centre, although the amount might well have been more, since the Centre must go to the same people who pay the taxes to get the other \$3,000 needed for the year. The Council is also to be constant of the other nations and dominions, put a war tax of one cent on letter postage, which still stays. This should now be removed, because it works a hardship on trade competing with the United States. In fact, many big American concerns, with branches in Canada, are having their circulars and price lists printed their circulars and price lists printed.)

Is it the custom of the Magistrates of Toronto to refuse to hear evidence

#### TWO-CENT POSTAGE

The Toronto Mail and Empire tells of an interesting experiment to be made with coal from New Brunswick and Nova Scotia. We quote:—

"Some interesting experiments in the use of bituminous coal from the Maritime Provinces and of púlverized fuel such as can be obtained in large quantities in Western Canada are about to be made in Ontario. Dominion Government experts are about to test the utility of coking plants as a factor in fuel supply. They are to conduct their experiment by means of new coking.

The Toronto Mail and Empire tells the Rockefeller Foundation, which Hon. Dr. Roberts secured, and agreed in the Rockefeller Foundation, which Hon. Dr. Roberts secured, and agreed ing to pay the salaries of two public to pay the salaries of two public health nurses after the expiry of two years. If other Municipal Councils will follow the example of St. John a great and needed forward step in public health promotion throughout the provative in Western Canada are about to be made in Ontario. Dominion Government experts are about to test the utility of coking plants as a factor in fuel supply. They are to conduct their experiment by means of new coking the plight of her daughters, one seven-

## SMALLPOX VS. NATIONAL HATE

pany at Hamilton and will treat coal from Nova Scotia and New Brunswick. Very soon, too, a pulverized fuel plant being constructed by the Ford Motor Company at Walkerville is to be brought into operation and is expected to show that such fuel can be employed advantageously."

The purpose of these experiments is of course to learn if it be possible to make Canada independent of Pennsylvania coal. The Mail and Empire says that the establishment of coking ovens in various centres in Ontario has been urged, and it adds:—

"It has been contended that such plants would make possible an extensive wear of hitumingurs coal from the virians and plants would make possible an extensive wear of hitumingurs coal from the wind and the two children must journey on alone. At the very threshold of the new land of hope and promise to which they had looked forward with such eager anticipation the wife and mother is taken. It is a tragic story that moves all hearts to sympathy for the bereft.

One after one the older citizens pass away, and friends mourn their passing. The late W. Alexander Porter, whose wholly unexpected death shocked his friends last evening, was a successful merchant and good citizen.

The purpose of these experiments is taken. It is a tragic story that moves all hearts to sympathy for the bereft.

The whole world with an epidemic. But there won't be an epidemic because civilized white nations know how to deal with the situation. Instead of waiting for smallpox to come to this continuity, they go out to meet it in China. Doctors, nurses, food and money are sent in abundance until the epidemic is reduced and the whole world with an epidemic. But there won't be an epidemic. But there won't be an epidemic because civilized white nations know how to deal with the situation. Instead of waiting for smallpox to come to this come there won't be an epidemic because civilized white nations know how to deal with the situation.
