TORONTO, JANUARY 22nd, 1904. In the good old summer time the elec-

should be sent down for life.

The police will now proceed to hunt up the stuffers. The culprits are liable Ralph Smith will be the Labor-Liberal

member for Nanaimo for the next session of Parliament. Ramsden busted the combination and ship at the same tim

The Globe will, no doubt, turn the municipal corruption cry into a political sin of the Conservative party.

There must be a thorough investiga-tion of this municipal ballot stuffing, even if it costs thousands of dollars.

The Socialists expect to have some representatives in the next Dominion House, and they are likely to come from British Columbia. The Ontario Conservative party is lacking in good fighting material in the House. They have had all kinds of chances of late, but have accepted very

If the same arount of energy were expended in the increats of the city as has been used up lately at the hall in order to fix things the livens would be highly tickled at the results.

The label movement wants

the trades union movement, as a whole, understand the principle behind the movement? Are they not led largely by the earnest thinkers in the movement, and will not the same apply to a political movement? Is it not applying to

very little about the science of social-ism who would with confidence vote for the president of the Trades Council, Mr. Simpson. Would it be good or bad politics to place that gentleman in a position where his power for good would be increased 100 fold just because those voting for him were not as well informed as he?

as he?

And this is just where the Socialists deserted tileir allies. Mr. Simpson is a Socialist and a trades unionist like the great majority of the Socialists. The Socialist movement has been gradually gaining strength through the method of working in the trade union. What influenced them to take the stand that they would no longer work with the powerful trades union movement and would place candidates in the field against candidates nominated by an organization of strength. It is broadening out and moving into a sphere beretofore little dreamed of. It is preparing to meet a great crisis with that solidarity of purchase the powerful trades union movement and would place candidates in the field against candidates nominated by an organization of the socialists. didates nominated by an organization of which the first officer and several other officers were Socialists. Is that not desertion of the allies with which you have been working. The Socialist movement and the trades union political movement cannot both hope to succeed, neither can either of them make progress with two in the field. Would it not be bet-

two in the field. Would it not be better politics upon the part of the Socialists to progress along the lines they were going working in harmony with the unionists than to oppose them.

The Globe will, no doubt, turn the nunicipal corruption cry into a political in of the Conservative party.

Two in the field. Would it not be better politics upon the part of the Socialists to progress along the lines they were going working in harmony with the unionists than to oppose them.

The tendency of Mr. Peel's argument leads one into the position of a drowning man refusing proffered help because he was not satisfied with the past beliefs of the individual.

We do not arres with Mr. Peel in the

liefs of the individual.

We do not agree with Mr. Peel in the last seatense of this paragraph:

"The man who has his own interest and the interest of his own class at heart It looks like violent hatred by both political parties against A. W. Puttee in Winnipeg, and the labor boys will need to stick so that the enemy does not get his scalp.

WAKE UP, ONTARIO.

We are constantly being told by preachers and industrial reformers that the salvation of this world, politically, in-

platform upon which the candidate stands but to some extent is due to the men who advocate the platform.

Moses led the Children of Israel who followed to a large extent blindly. Lather fathered the reformation, Lincoln was the leader of the anti-slavery movement—yet of all their followers will after proper will after they as a whole, ever understand the science of the stands for the platform.

MAN'S DUTY TO MAN.

Let each one of us ask ourselves the conestion, What is our duty toward our fellowmen? Our Lord plainly states in this last command to us that we love one another, and our neighbors as ourselves.

All men generally believe there is a movement—yet of all their followers will after they as a whole, understood just what the leaders were fighting for. Will the working people, as a whole, ever understand the science of the stands of trade were reduced by the board of trade

Official Organ of the Toronto District of socialism? Does the rank and file of And yet we see men struggling day by the trades union movement, as a whole, way in every shape and form imaginin every shape and form imag, some honestly, some dishonest the things which nature has pro

Why should this be? To many of us

itical movement? Is it not applying to all movements to-day?

Given a community of 100 people, will Mr. Peel assert that it is possible for ten earnest men of that hundred who are leaders to influence 40 or 50 more of that hundred to vote their way without knowing exactly what they are voting to for Does not confidence in the individual inspire the follower?

Mr. Peel knows as well as the writer that there are numbers of men who know very little about the science of sociallieve that there is a Supreme Being unagoverns all things, and provides all things for our use. Not that we should struggle one with another in dishonesty and strife, but that we love one another and use the things that nature has provided for us in a way that would be pleasing to Him who has so wisely provided.

Rab. who has so wisely provided.

It notices with stolid mood the economic evolution that is taking place in the financial and business world. Every day it finds itself bandicapped in its endeavor to settle differences that arise at intervals, that a few years ago were not thought of. The reason for these changed conditions is evidenced in the decisions against labor representatives by the courts of a late date. The trade unionists are preparing for that final stage of the game that is closer at hand than outsiders imagine. The latest news of the trust is to this effect, that billion aires Rockefeller and Pierpont Morgan are attempting to perform upon each other the alligator act, as each has performed upon thousands of other smaller fish, which in itself is a sign that they are close at the end of their tether, as far as these two are concerned.

Then it is for us to stop and think how these two men attained the enor-

last sentense of this paragraph:

"The man who has his own interest and the interest of his own class at heart would make it his duty to find out which faction is right, and after doing so the possibilities are he would cast a vote that would register a sincere political conviction. A movement built up by votes gotten in any, other way will show a false strength and shattering weakness when a crucial period arrives."

Let the elected men of any party be absolutely sure about the practical operation of the reforms they propose and if these are for the benefit of the whole people there will not be much of "false strength and shattering weakness". It is good polities to elect your man that stands for right principles and bad popolitics to keep up a campaign of education with practically unknown men continuously going down to defeat.

WAKE UP, UNTARIO.

Then it is for us to stop and think how those two men attained the enor mous wealth they now possess. Know-mous wealth they now possess. Know-mous wealth they now possess. Know-fing what we do of their first step of the other side of the line, that it was b and through legislation they throw the whole energies to assist them in carring wan of control and extertion, they do a fread either of the two political parties as at present exist in Canada, but they do dread the event of either the assay they are provent the step of the saw bole energies to assist them in carring wan of control and extertion, they do a fread either of the two political parties as at present exist in Canada, but they do dread the event of either the additional extensive the provent the saw through legislation they throw the whole energies to assist them in carring wan of control and extertion, they do dread the event of either the assay they are provent the step of the two political parties as at present exist in Canada, but they do dread the event of either the additional extensive the provent the step of the two political parties as at present exist in Canada, but they do dread the event of e

proven themselves the people's favorites by such bribes as portfolios, on commis-sions, etc. We have the history of the past in the gradual decay of third parties, brought about through the ambition of the leaders of these said parties. We

as has been used up lately at the hell in order to fix things the tirear would be highly tecked at the results.

The infelt movement wants some water and industrial reformers the properties of the working around the Trades Council, which was a state of the properties of the water properties of the water properties of the state of the water passing into the changed conditions he predicts.

The science of socialism may be understood by a noising of the water of the water passing into the changed conditions he predicts.

The science of socialism may be understood by a noising of the properties of the water passing into the changed conditions he predicts.

Will the quantity of wind passing through the gas meter be increased in properties to the water passing into the properties to get the properties to get to distance the properties to get to distance the properties to the passing water to proper the water than the properties to the properties to the properties to the passing water to proper the properties to the passing water to properties to the properties to the properties to the passing water to proper the properties to the propertie

"THE LABOR BUREAU" ONTARIO

By an Act passed at the 1900 1905 Session of the Ontario Legiciature, a Bureau of Labor has been established for the purpose of collecting, assorting and publishing information relating to Employment, Wages, Hours of Labor throughout the Frousines, Co-operation, Strikes or other labor difficulties: Trades Unions, Labor Organizations, the relations between Labor and Capital and other subjects of interest to workingmen, together with such information relating to the commercial industrial and annitary conditions of wage workers, and the permanent prosperity of the industries of the Province, as the Eureau may be able to gather.

For which purpose the co-operation of the Labor Organizations and others interested in the general prosperity of the Province is invited.

F. R. LATCHFORD.

F. R. LATCHFORD, Commissioner of Public Work
ROBT. GLOCKLING,

During November the wages of the members in the skilled trades reporting to the board of trade were reduced by £6,800 per week.
