VANCOUVER CARPENTERS WILL RESIST ATTEMPT TO REDUCE WAGES.

VANCOUVER — Carpenters of Vancouver met last week in the Dominion Hall to consider the report of the joint committee of the carpenters' organization which met the master builders in conference recently on the question of a readjustment of wages.

The meeting, which was largely attended after hearing the report, discussed the contemplated wage reduction as proposed by the Master Builders' Association, and, upon motion, decided to adhere to their original demands of no reduction in the wage schedule of \$7.25 a day as now paid.

Members reported that the building trade was in a bad condition, but that this was not due to the wages paid but to general depression.

"British Columbia," declared one delegate, "has always paid the lowest wages in the building trades of any place on the Pacific Coast and we feel that the time has come when we must take a determined stand on this question of wage reduction without a corresponding decrease in the cost of living."

Another delegate reported that carpenters employed at the Wallace Shipyards were working for less than the agreed wages, and a lively discussion arose as to what action should be taken.

HOW IT WAS TO BE DONE. A colored blacksmith recently announced a change in his business as follows: "Notice—Do co-partnership heretofore existing between me and Moses Skinner is hereby dissolved. Dem what owe de firm will settle wid me, and dem what de firm owes will settle wid Moses."

Keep the Machinery Going. The factory would stand still if the belts that turn the wheels were to fall. Belts that make the engines run with the least repair and adjustment are the workman's best friend. No lost time. Machinery in every factory should be driven with:

It is a satisfactory chew. Deliciously sweet and juicy, not irritating to the mouth and tongue, everybody enjoys it.

LINGERING FLAVOR

THE SITUATION IN THE BUILDING INDUSTRY AT OTTAWA.

The Ottawa Branch of the Association of Building and Construction Industries in Canada has notified the Ottawa Building Trades Council that there is to be no democracy in the building and construction industry in Ottawa. Why this action no one seems able to state.

For the past two years there has been in effect a union shop in the building and construction industry in Ottawa. Democracy entered the industry and with it came an industrial council. To this tribunal all disputes—after the agreement was signed—were submitted. Many of them were settled to the advantage of the employer; and all were settled to the satisfaction of the parties concerned.

In reviewing this situation one needs to go back a few years. For the past quarter of a century the International Trades Union Movement has struggled for democracy in industry. It has experienced much opposition. It has fought many an industrial battle. It met some defeat, it won some victories.

The Ottawa Allied Trades and Labor Association warned its affiliated members of the danger of this movement and one of the Ottawa daily newspapers reprinted the remarks of the "paid official of the employers." To those in our midst who believe that the non-union shop movement is confined solely to the United States, we suggest that they study well the situation in the building industry at Ottawa.

We have heard it stated that had

OTTAWA TRADES COUNCIL ENDORSES ROLLO'S FAIR RENTALS BILL.

OTTAWA.—At the last regular meeting of the Ottawa Allied Trades and Labor Association that body went on record as being in favor of Hon. Walter Rollo's Fair Rentals Bill. The Fire Fighters' request for a Board of Conciliation was also endorsed as was the stand of the Minister of Labor in regard to the National Catholic Union. The executive urged all members to cast their vote on the coming referendum. In another column appears extracts from the addresses of Mr. Tom Moore and Mr. P. M. Draper.

Just a laborer—dead! Stricken down by the sun. His day's work was done. Overcome by heat, they said.

Look on him, lying there. Buried and wrinkled face, Lacking beauty or grace. Furrowed with lines of care.

Some must dig in the ditch. Others may toil as gamblers. Hecken it is as you please. Life belongs to the rich.

It is useless to talk of calling people out on strike if they won't follow us to the ballot box.—J. H. Thomas. Which we have said—often.

O'er Continent Wide
