HAWAIIAN ADVICES

News From the Island Brought to San Francisco by the Steamer Gaelic.
San Francisco, June 28.—The steamer Gaelic brought the following advices from Honolulu, dated June 20th: Since the Philadelphia has been in port weekly lullaxion drills have been held. On June 14 the men from both the Marion and the flagship were landed. While on march on the drill grounds an orderly brought an order, and the battalion returned on board. This action was taken it is understood, on account of a rumor to the effect that the Naniwa would land a company of men to take charge of the Hawaiian custom houses. The Japanese failed to act, and it is believed that Admiral Beardslee's prompt action caused the captain of the Naniwa to change his mind.

The English speaking people here believe that there was good foundation for the rumor in spite of the denial made by the Japanese legation. "There are all kinds of rumors floating round," said Counselor Akiyama. "One ridiculous one was that the Japanese sailors were to land and take charge of the custom house. Another is to the effect that the Naniwa is to leave on Wednesday. That rumor is also without foundation. About two months hence another rumor will be here, and the Naniwa is not likely to leave before then."

Japanese Minister Shimamura denies a story to the effect that Japan has withdrawn its request to the Hawaiian government for an explanation for ejecting Japanese immigrants. "There has been no correspondence between the legation and the minister of foreign affairs since June 4," said Minister Shimamura. "At that time I addressed a letter to the minister of foreign affairs, but as yet, though it seems a very long time, I have received no reply."

The position is this, continued Mr. Shimamura. "Before the steamer having the immigrants on board left Honolulu I made a formal protest to the minister of foreign affairs. His answer was incomplete and unsatisfactory. In due time I received instructions from my government and sent a second protest to the minister of foreign affairs. The Japanese government sent me an answer that I considered vague and indefinite. On June 4 I wrote again, and for two weeks my letter has remained unanswered. I am daily expecting a communication to arrive."

Y. Ishikawa, editor of the Tokyo Chuo Chimbun, who came here on the Japanese cruiser Naniwa to investigate the trouble arising from Japanese immigration, started for home on June 15. He carries a proposition from Col. Spalding for a trans-Pacific cable, which he believes the capitalists of his own country will not be slow to take hold of, and that at no very distant date.

JAPAN'S POSITION.
O. position to Annexation Based on 11th Treaty of 1886.
Washington, June 28.—The Japanese position on the annexation of Hawaii by the United States has been learned from a very high source. The Japanese base their opposition to annexation almost entirely upon the ground that it is an interference with the treaty rights of Japan, and complain especially that the treaty was negotiated in the face of the most friendly protestations from Japan, and at a time when the Japanese an-

THE CUBAN STRUGGLE.

Weyler Will Make the Effort of His Life to Quell the Rebellion.
Jacksonville, Fla., June 28.—General Weyler, while at Cienfuegos, made a request for 20,000 colonial volunteers, with the intention of starting an active campaign. He has also demanded from Spain 10,000 additional troops to reach Cuba by September. The rainy season will be drawing to a close at this time, and this goes to prove the assertion that he will make the effort of his life to conquer the insurgents. The announcement that Gomez will begin active operations seems to be verified. It is officially stated today that a Spanish column had an engagement with rebels under Sindo, on Stalongo ranch, near Santiago province of Matanzas. The insurgents seem to have been dispersed with a loss of fifteen killed and one wounded.
