Parisian Paper's Advice. Paris, Nov. 16.—The Journal to-day re-ferring to peace negotiations, says: "We think the extravagant exigencies of the United States have made discussion al-nost impossible between that country and Spain. His Proposed Visit to Spain Aroused Intense Curiosity.

New York, Nov. 14.—A special to the Herald from Madrid says:—

Nearly all the heads of the diplomatic corps have called on the minister of foreign affairs to inquire what importance is to be attached to the visit of the German Emperor. The government has little of the matter, and it has made further intimated that it accepts as an inevitable outcome of events being foreed to relinquish the sovereignty of Spain in the Philippines. The visit of Emperor William has ex-

War department to have the volunteer troops now in the Philippines returned to this country. Nearly every state that has troops stationed at Manila has asked, through the governor or representatives in congress, that these troops be sent home. This pressure comes through rela-tives and friends of the volunteers and by men who have been writing home. Some of these letters published in the papers at the homes of the enlisted men have created a wave of sympathy for the volunteers in the Far East. While they do not recount very great hardships, except among those who are ill, they do show that the life is very obnoxious and that the duty of policeing the city of Manila and remaining inactive is very disagreeable. It is said at the war department that there is no way of re-lleving these troops from duty in the Philippines at the present time, as the uncertain conditions that exist in the Island of Luzon makes it utterly impossi-ble to get along with a smaller number cited the greatest interest in England and France, and the representatives of ble to get along with a smaller number than is stationed there at present. Gen-eral Otis has been asked by cable if the troops could be spared, and has replied in both countries have been particularly eager, under instructions from their gov ernments, in asking for details. They have been assured that the visit here the negative. POSTAL MATTERS. Washington Notified of Canada's Intention

to Change Rates. Washington, D.C., Nov. 16.-In his an-nual report to the state department, Con-sul Géneral Bittinger, at Montreal, says Canada is about to make an important change in her postage rates. On the 25th of next month there will be three rates of postage on letters, viz.: Two cents for Great Britain and her colonies, three cents for Canada and United States and five cents for foreign countries. If the experi-ment proves satisfactory, the postmaster-general, it is understood, will then reduce letter postage for Canada and to the United States to two cents. After Jau-uary 1st next the newspaper rate will be a quarter of a cent per pound, but after July 1st this will be increased to half a cent a pound. to Change Rates. ortance to the imperial visit and looks upon it as perhaps merely serving to arouse hopes which cannot be realized. It remains, however, at the present moment, a matter of political record that there exists a sentiment here that France of late has been of small utility to Spain in spite of her assurance of friendship, and perhaps the Philippine clause of the protocol has much to do with the origin of this sentiment. The Queen Regent is credited with a desire to seek assistance from more northern ormines and if this is true, she would empires, and, if this is true, she would now prefer to be allied with the triple alliance rather than with the Franco-
