

RECREATION.

The closest attention will be given by the Principal and Faculty to all matters affecting the health of the students. An experienced teacher is in charge of Physical Training and Calisthenics, and all the students are provided with the means of daily practice. At least one hour's daily exercise, either in class or out of doors, is required of all resident pupils. Provision is made for out-door exercise under such supervision as may be deemed necessary. The location of the college affords good opportunities for this purpose.
