

TROUBLE FOR X-SCIENTISTS

Followers of Mrs. Stetson in Recent Revolt Beset By Trouble -- Bodily Fears Blamed Coincidences.

New York, Feb. 3.—Death, insanity, disease and broken bones have been meted out to many of those who were engaged in the strike which broke out in the First Church of Christ, Scientist, and resulted in the resignation of its founder, Mrs. Augustus E. Stetson.

The friends of the Boston administration who have suffered from the maelstrom animal magnetism is responsible for their woes and for twinges which they have had from the powers of evil in the city.

Although the First Church of Christ Scientist is reported to have been shaken by the shock, as was evident from the presence of two thousand persons at the Leonard lecture in the edifice at Central Park West and Ninety-sixth street last Monday night, the counting of casualties continues.

Death of Miss Hatheway. Among those who have passed on was Miss Sarah Hatheway, one of the seventeen healers who was a devoted friend of Mrs. Stetson, and with the others was asked to leave the building.

Many expressions of sympathy are heard concerning Mrs. Katherine Kennedy, the gifted and beautiful wife of Mr. William Burns Kennedy, of this city.

Mrs. Kennedy came over here last June on one of the Red Star line steamers in a much overwrought nervous condition and was treated at a sanitarium.

Probably the most notable example of intellectual disturbance which has befallen the friends of Mrs. Stetson is that of Mr. Henry Pennington Toler, who gave most of his fortune to the promotion of the plan for reclaiming all of Harlem for the descendants of settlers and founding therein a Christian Science New Jerusalem.

Among the bodily afflictions which have beset the wilton champions of Mrs. Stetson, broken bones and sprained ligaments were the most common.

Woes connected with the loss of self are chiefly concerned in the troubles of Mrs. Maud Babcock, who gave the splendid organ to the First Church of Christ Scientist.

Miss Penny Absent. Miss Penny, who is a member of the Stetson household, has not been presiding at the organ in the First Church for the last two weeks, and it is announced that she is absent on a vacation.

Moncton, N. B., Feb. 3.—E. R. McDonald, mayor of Shediac, was in the city yesterday en route home after a visit to the new gold fields at Percipue Point, and advises prospective investors not to put any money into Percipue claims for the present at least.

It is a theory accepted by the champions of the regime of Mrs. Eddy that the partisans of Mrs. Stetson have had their minds so carried away by vain imaginings and by storms of unreasoning enmity that they have been gradually possessed by the fear of bodily harm, have lost their mental poise and have been driven into the besetting errors of mortal mind.

Mrs. Stetson mean while continues to reside in her finely appointed house adjoining the church and seldom is seen in the streets.

NO CAUSE IS FOUND FOR SPANISH RIVER DISASTER

Subury, Ont., Feb. 3.—As a result of the second and most complete inspection of the scene of the Webber, wood disaster made yesterday by the crown and C. P. R. officials a tacit agreement has been reached as to which of the cars of the ill-fated 'Sox' Express started to rush down the embankment at Spanish River, but there is as yet nothing to show what caused the derailment.

It is now thought the leading trucks of the first-class coach struck the sleepers at a point about 393 feet east of the bridge bumping along the ties for about a hundred feet.

The highest type of United States Immigrant is Crossing the Border -- American Who Had His Eyes Opened.

New York, Feb. 3.—Col. John H. Conrad, who has a town in Alaska named after him, Conrad City, where he spends the hot weather, has just got back from the Saskatchewan region in Canada, where he has a ranch of many thousand acres.

"The best settlers up there are Americans from the western states," said Col. Conrad at the Hotel Belmont.

"An astonishing thing I saw up there once was the arrival of a trainload of American emigrants, who brought on the same train their horses and wagons and a steam plough.

"The development that is going on in that part of Canada is beyond belief. It is the greatest boom that any country ever had and it will continue many years.

"Alaska is the richest mining country in the world, and if the national Government would only assist the railroad building it would soon get its money back a hundredfold."

Atlantic City, N. J., Feb. 3.—Horror-stricken by the suspicion that some visitor had hidden away in his clothes, residents of this place are threatened with nervous prostration.

The cave was found on the property owned by Judge Enoch Higgins, right near the bay front.

London, Feb. 3.—An echo of the recent political campaign was heard today when Frederick Horner, former member of the House of Commons and a newspaper man named Lambeth were committed for trial in the Old Bailey court, on the charge of having forged telegrams sent to the Daily Mail.

DOG DIES FOR LITTLE GIRL

Shot After Manging the Playmate of Mistress Whose Play Cries Had Sounded Real.

New York, Feb. 3.—Thinking that the cries of his six-year-old mistress at play with some other children, meant that one of her playmates was attacking her, an English bull terrier, which has been the constant companion of Dora Sherman since she was first able to toddle, flew in a fury yesterday at Minnie Lewis, four years old, biting her badly about the head, and probably would have killed the child but for the interference of a policeman, who shot the animal.

Minnie Lewis was trying to dislodge Dora Sherman from a chair, and the play was so boisterous that the dog became excited and, as was found in an instant he had dashed among the frightened children, seized Minnie Lewis by the ear, and then when she fell to the floor began to attack her head. He was hampered by the child's thick hair, but he bit her ear and her shoulder.

Julius and Dora tried to loosen the dog's grip, but were bitten on the hand, and when Mrs. Sherman returned at that moment she was equally powerless.

Hearing the uproar, Policeman Sammons of the East 104th street station, sprang up a fire escape and entered the flat through a window. He beat the dog over the head with his stick (fill the animal loosed its hold. Then the dog sprang off to the other side of the room and finally made a leap at the policeman's throat, to be stopped by three bullets from the latter's revolver.

Dr. McDonald, of Harlem Hospital, attended the little patient, who had become unconscious. The dog's carcass was taken by the Board of Health for examination.

Moncton, N. B., Feb. 3.—E. R. McDonald, mayor of Shediac, was in the city yesterday en route home after a visit to the new gold fields at Percipue Point, and advises prospective investors not to put any money into Percipue claims for the present at least.

LAUGHED AT GOING FLOODS

Le Bretagne's Passengers Arrived in New York Tell of Parisian Jokes Previous to Recent Disaster.

New York, Feb. 2.—La Bretagne, the first modern airship, left France since the flood, came in yesterday. She had a man named Noah on board, but he was in the steerage, and made no effort to command the expedition.

The passengers said yesterday that when they were in the department of Paris had warned the populace that the river might overflow her banks.

Many of La Bretagne's passengers considered the flood incident as closed when they were generally thought that wireless reports received at sea caused them some anxiety and after the third day out every one watched anxiously for news from France.

A wireless report received during the night of the 21st, announcing that the Eiffel Tower was shaky and likely to fall was a bomb of consternation.

Mrs. M. L. Nuttal, of No. 93 Madison avenue, who was a passenger, said that various crochets swarmed along the home of Captain Mark Doughty, who were after right at the entrance.
