"THAT LITTLE GAME" --- A Hard Loser

Making a
purely
vegetable Medicine

1875—1919

In 1875, Lydia E. Pinkham of Lynn, Mass., gathered and dried the roots and herbs which she used in the now famous Lydia E. Pinkham's Vegetable Compound, from the fields and forests, then steeped them on her kitchen stove and filled a few bottles at a time, to alleviate the suffering of her women friends, neighbors and acquaintances, and the success of this medicine was unparalleled.

After 44 Years

These illustrations show the present method by which vast quantities of this well-known remedy are produced and from exactly the same kind of roots and herbs used by Mrs. Pinkham in the beginning.

First—The various herbs used are of the finest quality, and gathered at the time their medicinal strength is the highest.

Second—After the herbs are properly ground and mixed, the medicinal properties are extracted by soaking in large stone jars, covered.

Third—Then the extract is drained through percolators, acting somewhat like a coffee percolator.

Fourth—To insure a thoroughly pure medicine, it is carefully pasteurized by heat in special apparatus, and bottled hot.

Throughout the entire process, from the crude herb to the finished medicine in bottle, cleanliness and exactness are the watch-words.

The Reliability of Testimonials Guaranteed

The testimonials published by the Lydia E. Pinkham Medicine Company come to them unsolicited. Never knowingly have they published an untruthful letter, never is a letter published without the written consent of the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It is easy to realize how these poor, suffering women feel when restored to health; and their keen desire to help other women who are suffering as they did.
