**76 King St. East, Toronto**

## Mason & Risch

### Pianos

Probably the most striking fact in connection with MASON & RISCH PIANOS is their suitability to all conditions. That they satisfy the social and aesthetic sense is evidenced by the fact that our cultured homes, from Rideau Hall down, use them. The fact that nearly every college or music school of importance in Canada is supplied with them, gives testimony to their musical excellence, and even in the homes of far off British Columbia, deep in the forest, and far removed from the tuner's visit or care, they are still to be found standing hard usage like a rock, and cheering the distant home with their musical tones.
