

ITALIAN QUEEN BEES

Well Developed! Hardy! Prolific!

I have selected a yard of One Hundred of my choicest Italian Colonies, and intend to run this yard exclusively for Italian Queens during the present season.

This stock has been run for the production of section honey, and has given me splendid results for a number of years back.

The bees are pure Italian, having the distinctive characteristics of that race—good-sized, well-marked, and easily handled.

They winter well—clustering quietly on their combs in the cellar.

They build up quickly in the Spring—the queens are prolific, and the brood well looked after by the workers.

They are good honey-gatherers—having given me good crops even in poor seasons.

MR. WM. McEVOY, who has ordered a large number of these queens each year, for several years back, writes:—"I don't consider that your queens have cost me a cent. They more than pay for themselves every time."

I am already booking orders from extensive bee-keepers who have tried the stock in former years and are well satisfied with it.
