FULL TRACTOR VALUE FOR CAREFUL BUYERS

THE TRACTOR you buy must be *strong* so that it will last for years; it must be *easy to handle* and *economical to operate*; and above all, it must give you *dependable service*.

Strength—in-built ability to stand up under all conditions—is a feature of Sawyer-Massey Gas-Oil Tractors that make their *cost-per-year* really small.

Ease of operation is the result of simplicity—of standardized design, perfect four-wheel balance and one adjustment carburetor.

Sawyer-Massey vertical 4-cylinder, valve-in-head motors develop unusual power. This power is transmitted direct to *both* traction wheels on which 75% of the tractor weight rests. This assures traction under all conditions.

Sawyer-Massey Air Cleaners remove dust from air fed to carburetor—no foreign matter can get into and injure the cylinders.

Sawyer-Massey Gas-Oil Tractors are built in four sizes: 11-22 H.P., 17-34 H.P., 20-40 H.P., 27-50 H.P. There is a size for your individual need.

The Sawyer-Massey eighty year reputation for quality is behind their tractors. The Sawyer-Massey intimate knowledge of the Canadian farmer's need is in them. Warehouses at the principal agricultural centers assure Sawyer-Massey owners of adequate service.

*Bulletins describing Sawyer-Massey Tractors
or Grain Separators forwarded on request.*
