

## To make your skin fine in texture - lovely even when seen closely

**M**ANY a face that is attractive at a glance, loses all its charm when seen closely.

For your face to be truly lovely, even when seen closely, the texture of your skin must be fine and smooth, the pores should be *hardly visible*.

The skin of your face is more exposed to wind and dust and cold than any other part of the body. Its delicate pores contract and expand under the influence of cold and heat. Irritating dust is carried into them. They clog up and become enlarged.

This is why it is so important, in order to keep your skin fine in texture, to use the proper method of cleansing and stimulating it.

### This famous treatment has helped others

Dip your wash-cloth in very warm water and hold it to your face. Now take a cake of Woodbury's Facial Soap, dip it in water and rub the *cake itself* over your skin. Leave the slight coating of

soap on for a few minutes until the skin feels drawn and dry. Then dampen the skin and rub the soap in gently with an upward and outward motion. Rinse the face thoroughly, first in tepid water, then in cold. Whenever possible finish by rubbing the face with a *piece of ice*. Always dry carefully.

Use this treatment persistently. It will strengthen the small muscular fibres and gradually rebuild a smooth-textured skin. Within a week or ten days you will notice an improvement, but remember that you cannot correct in a day what years of neglect have caused. Only the *steady* use of Woodbury's will give you that greater smoothness and finer texture you *can* have.

For a month or six weeks of this treatment and for general cleansing use for that time, the 25c cake of Woodbury's is ample. Get a cake, and begin tonight the proper treatment of your skin. Woodbury's is for sale at drug stores and toilet goods counters throughout the United States and Canada.
