

Beavers, Mermaids Win

The University of New Brunswick Beavers and Mermaids combined on Saturday afternoon in Sackville to defeat the Mount Allison swimmers 119-61 in the first intercollegiate swimming of the year.

The Beavers got victories from Bob Gibson in the 200 metre back stroke and the 200 metre individual medley; from Chuck Price in the 200 metre butterfly; from Rowley Kinghorn in the 500 metre free style; and from Bill Hay in the 200 metre breast stroke. They also won the 400 metre medley relay, and ended up beating the Mount A. men's team 55-40.

The Mermaids got double victories from Debbie Pound in the 200 metre free style and the 500 metre free style; from Trish Mahoney in the 50 and 100 metre free style events and from team captain Nancy Likely in the 200 metre breast stroke and the 200 metre individual medley. The girls won both the 400 metre relay and the 400 free style relay, while in the diving competition Sue Kinneer took first place honours for the Mermaids. The only serious com-

petition they faced, Mount A's Pat Paul, was disqualified from all her events when she entered in more than the maximum number of three. This accounted for the huge margin of victory which the Mermaids racked up, but they did it without their best swimmer, Helen Sinclair. The score

in the women's meet was UNB 64 - Mount A 21.

The next meet for the UNB swimmers will be against the Bangor YMCA in Bangor, Maine, on Saturday, November 18, and the first home meet against the same Bangor team on Saturday, November 25.

Graduate Scholarships VALUE \$6,000 PER ANNUM

A number of scholarships, each valued at \$6,000 per annum (tax free), are available to suitable graduates in any branch of engineering - mech., elec., civil etc. - or applied science who are interested in a career in the Mining Industry.

These are McGill University scholarships for an advanced course leading to a master's degree in mining engineering.

Applications should be made, before February 5, 1967, to:

Chairman:
Dept. of Mining Engineering & Applied Geophysics,
McGill University, 510 Pine Avenue West,
Montreal, P.Q.

These scholarships are sponsored by a group of Canadian Mining Companies.

FOREST ENGINEERING AND ENGINEERING
graduates are invited to discuss career opportunities with Canada's leading integrated forest products company.

Interviews will be held on campus November 20-21 for graduating students interested in logging engineering and production or in design and process engineering opportunities.

For information and appointments, please contact your Student Placement Office.
