My business is to supply what every farmer of experience is most anxious to get, PERFECTLY RELIABLE Vegetable and Flower Seed. With this object in view, besides importing many varieties from reliable growers in France, England and Germany, I grow a hundred and fifty kinds of vegetable seed on my four seed farms, right under my own eye. Around all of these I throw the protection of the three warrants of my Catalogue. OF NEW VEGETABLES I MAKE A SPECIALTY, having been the first to introduce the Hubbard and Marblehead Squashes, the Marblehead Cabbages, and a score of others. My Catalogue, containing numerous fine engravings, taken from photographs, sent FREE to all. JAMES J. H. GREGORY, Marblehead, Mass.

Comprising all that is New and Desirable in the Separate Departments.

Send for a Descriptive Catalogue. P. O. Address—ST. JAMES' PARK. 3-tf

THE DAY RAKE

IS OFFERED IN ENTIRE CONFIDENCE TO FARMERS AND DEALERS IN THE DEPARTMENT of Agricultural Implements. It is inferior to none as a labor-saving implement. It is operated with ease by a lad 12 or 14 years old. This Rake is the result of steady and repeated experiments. They are manufactured from good material and are well finished, being nicely painted, striped and varnished.

- The Advantages Claimed for the Day Rake, are:
1st—The teeth are supported at a greater distance from the head or place of fastening, which is desirable.
2nd—The head is so attached that it permits the teeth to drop below the level of the bottom of the wheels.
3rd—The operator can raise the teeth eight inches above the winrow in discharging the hay.
4th—It will rake a larger winrow than any other Rake now made.
5th—The operator has perfect control of the teeth, to make them pass lightly over the ground or press them down to gather heavy hay.
6th—The wheels running upon an elevation will not raise the teeth from the ground.
7th—The teeth are so shaped and attached that they do not scratch or harrow the ground like most Steel Teeth Rakes.
8th—It is easier worked than any other Rake.
9th—The hay will not run out at the ends of Rake.
10th—It can be used to good advantage for spreading hay.
11th—The seat can be raised or lowered, to suit size of person operating.

Agents Wanted. Send for Price List, &c. All orders addressed to the undersigned at Brantford will be promptly attended to. A. HOWELL, MANUFACTORY: BRANTFORD 3-4in
