Our booklets are free. A post card brings them to you.

**WOLVERTON & Co., Nelson, B.C.**

**SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS**

ANY even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,  
Deputy of the Minister of the Interior.

**A MOUNTAIN OF EVIDENCE**

**WHY**

**THE Magnet Cream Separator**

Is So Easy to Turn

Because of its perfect ball race as shown in the accompanying cut. If you examine it carefully you will see it consists of one ball in the bottom of the ball race cup, around which five balls run. The spindle which turns the bowl rests on these balls, its end being formed by the insertion of another ball which when running, causes less friction than that of any other ball race in existence.

Notice the spring at the bottom of the ball race which takes off all jar, and prevents wear.

When the machine is started, it runs like a top. It is the only ball race suitable for a fast running machine like a cream separator.

Every part of the MAGNET is carefully built, hence its wonderful success in clean skimming.

Our new catalog will be sent free upon request. It describes and fully illustrates all the advantages the Magnet Cream Separator should possess. It is a masterpiece of the MAGNET.

**VIRDEN NURSERIES**

**200,000**

Trees and cuttings, small fruits, shrubs, creepers, spruce, apples and crabs.

I have by far the largest stock in the West of these hardy, fast growing Russian poplars and willows; I send everything by express, prepaid, so as to arrive in good order. Trees may be returned at my expense if not satisfactory. No agents, no commissions, selling cheap. A postal card will bring you my price list and printed directions.

**JOHN CALDWELL, Virden Nurseries VIRDEN, MAN.**

**I Can Cure Your Rupture**

Just READ THIS and You Will Know Why. 15 DAYS' TRIAL. TREATMENT FREE. To cure your rupture you need a truss which will hold your rupture securely, and a good treatment that will close the rupture opening, while the rupture is being held back. Now, is your truss good? Does it always hold the rupture back?

If it does not, why not? Just because the pad is not the proper one to retain the rupture.

Now, you know you can hold it back with your fingers, because they will cover and fill the opening.

My Inflation Truss does exactly the same thing. It possesses a small, finger-shaped pad, filled with air to the size of the rupture opening; it covers the opening and fills it. My Inflation Pad works just like your finger does.

Therefore it is a good truss, the one that holds rupture securely, the one that you need. You cannot obtain this truss from any one else, because it is my patent. It was patented in Canada on Dec. 1, 1903, and in the U. S. A. on June 23, 1903. I employ no agents or drug stores.

Trusses for my Canadian patrons are manufactured in Canada and no duty to be paid by my patients.

When used in connection with my Fibro Plastic treatment, which creates new tissue across the rupture opening, it will close the opening and cure your rupture.

Yes, my patented Inflation Truss and Fibro Plastic treatment accomplish this. I have done so in hundreds of cases. I can do so in yours. I know I can.

Write me today for my 64-page booklet, giving further details, and my 15 days' trial treatment which will be sent you absolutely free of charge. Address
