OTTAWA, April 21 .- The debate on the budget, which was 'esumed in the house today, revealed nothing more clearly than a disposition on the part of the opposition to cry down the credit of Canada by way of reflecting upon the financial administration of the present government. The lack of fore-

resumed the debate. "The Conservative party have always been an optimistic party" These sentiments were cheered by the opposition, and to prove how much of an optimist he is Mr. Perley proceeded to draw a picture of conditions in Canada contributable to the cause of financial blunders of the government, which suggested that the country is going to the dogs. The member for Argenteuil condemned the Minister of Finance for having failed to anticipate the financial stringency and for having neglected to take advantage of more prosperous times to issue loans. Th other respects Mr Perley's speech was a weak echo of Mr. Foster's.
