LIFE ASSURANCE COMPANY, CAPITAL ONE BILLION OF BRILING

REDUCED RATES OF PREMIUM.

THE great and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally sequired in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avait themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Commany transacting business in Canada. rance Company transacting business in Canada.
The Directors have also resolved to extend to
British North America the advantages afforded
by the HALF CREDIT RATES of PREMIUM by the HALF CREDIT RATES of PRESIDENT which have been so highly approved and are so energilly adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise effered to the Assured an the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

DR. LA'MERT ON THE INFIRMITIES OF YOUTH AND MATURITY

Just Publi-hed, 40th Edition, and may be had in French and English, in Sealed Envelope, 2a. 6d. Sie ling.

SELF-PRESERVATION:

MEDICAL TREATISE ON THE PHYSIOLOGY OF MARRIAGE, and DISORDERY OF YOUTH AND MATURITY, usually acquired at an early period of lie, which enervate the physical and menial powers, dominish and enfebbe the natural fee ings, and exhaust the energies of Manhood—with practical observations on the Treatment of Nervous Debility and Indigstion, whether arising from those causes, clone study or the Influence of Tropical climates; Local and Constitutional Weskness, Syphilis, and all Diseases and Derangem into resulting from Indiscretion,—with Forty Colored Engiavings, itsustrating the Anatomy, Physiology, and Diseases of the Reproductive Organs, explaining their structures, uses and function, and the various injuries that are produced in them.

EV NAMUEL LA'MERT, M. D. annual Premiums required for an Assurance of £100 for the whole Term of Life, the Rate decreasing at the expiration of every Fith Year, until the Twentieth inclusive, after which period no other payment will have quired.

tures, uses and function, and the various injuries that are produced in them,

BY SAMUEL LAMERT, M.D.,

No. 37, Bebroan Square, London,

Doctor of Medicine, Matriculated Member of the University of Edinbu gh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital, Medical Society, &c.

Marriage requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil, which covers the origin of domestic "vretchedness, be raised, said list true source in every instance disclused, in how many could it be traced to physical disquisifications and their attendant disappointments. Excesses are always injurious; the gift which, when used in moderation, is fraught with advantage, becomes, when abused, the prolific source of mischief, and of greater or less injury to the constitution and vital powers.

The particular excesses, on the nature and colsequences of which this Treatise professes to dilately are productive of greater missry to the human frame. or less highly to the constitution and vital powers. The particular excesses on the nature and consequences of which this Treatise professes to dilute, are productive of greater missery to the human frame than any other to which it is subject.

This Work contains an accurate and complete second of the Anatomy and Physiology of the Reproductive Organa, and of their relative conditions in health and disease. Nor are these the sole contests of the work: the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closest attestion and study, for what subject can be of more importance than the preservation of health, and of the physicial chi abilities of which every man should be possessed. It unfortunately happens, that, the unhappy victim of escessive multipence and victous habits, whether acquired in early life, or from the follies of advanced age while suffering from their max ribble consequences, unwisely entertains a fear of applying to a qualified physician for relad. Shame and the dread so frequently, but erroneously, entertained, that these complaints are beyond the reach of art, slike regit or him, and prevent his seeking for assist since where abuse it can be procured. In acting they, he forgets that accurate discrimination in as cortising the cause of discame, sympathy with the sufferer, and above all, accrees, having the procured in a country to the seeking for an when by his possession of the reduinite legal qualification, that he is entitled yo esteem and respect in his protessional pursuits, the situation testify, and the great stend of his practice for many yets. It a guarantee for his professional experience, which has reference almost solely to the breatment of these discrimination.

The Work may be had in Montreel, of JOHN McCOY; in St. Johns, of H. Chuza & Co., Puece Research and present an ANALYSIS OF THE ST. LEON WATER, I HAVE submitted to analysis the Wester from the Source of St. Leon; and find it to be strongly saline, it contains chloride of sodium in large quactity, with magnesia and lime, parity as carbonates, dissolved by the excess of aerbonic acid, and parity as chloride. Like most of the other saline waters of the country, it contains promine and iodine; in addition to which. I have detect-

A PERICAN IN TOWNSHIP CHERSE.

CONNECTICUT MUTUAL LIFE INSURANCE COMPANY, HARTFORD.

and Accumulated Premius.

INSURANCE COMPANY is established spon the purely mutual systems, with a Tariff of Premiums as low as is justifiable with a Tariff of Premiums as low as is justifiable with the persuasence and security of an Institution of this plantacter. Every person taking out a Policy is a member, and entitled to vote ut the Annual Meetings. The Dividends are declared annually on the 31st January. All persons insuring previous to that day, participate in the profits of the books of the Company; to be paid during the bife of the insured, in the order of rotation, from the excess of a capital of profits of \$200,000. The stipulated capital of profits having been obtained, the Directors will be authorized to pay the first year's Dividends at the close of the present fiscal year; afterwards, each year's Dividends, in regular order, will be redeemed, as the funds of the Institution exceed the above two hundred thousand dollars. It is supposed that each person will be required to pay three annual Premiums before his Dividends will be redeemed. This feature in the conditions of this Company, over those who do not redeem or pay the Dividends until the death of the insured, is peculiarly favorable to the member, as the redemption of Dividends will assist in the payment of the Annual Premiums, after a few of the first years have elapsed, or take up notes given for Premiums.

The assured, on surrender of his Policy, at any of the Assured.

Insurers can at all times demand, as a right, a
Loan to the extent of two-thirds the amount of
Premium they have paid—upon deposit of their
Policy, and guaranteeing it will be kept in force.
This important advantage removes the fear so
many entertain of being obliged, through pecuniary embarrassment, to let their Policies lapse,
and at a time such a provision is absolutely
needed for their families.

assist in the payment of the Annual remaining after a few of the first years have elapsed, or take up notes given for Premiums.

The assured, on surrender of his Policy, at any time after three years, will receive its equitable value. All Premiums amounting to fifty dollars, or more, on Policies running five years or longer, may be paid one half by Note; to remain a debt on the Policy becomes a claim.

This Company was organized in December, 1846, and its prosperity has hitherto been unparalleled. It is now in the third fiscal year of its existence; and numbers (October, 1849) nearly s. on thousand members; with a constantly increasing accession. Its loases have been small, compared with the numbers which might have an expected, according to the Tables of Mortality upon which Life Insurance is predicated. By unparalleled success in business, and a strict economy in the administration of its affairs, larger Dividends have been made to Policy holders than by any other Company in the United States; averaging more than 60 per cent. annually.

JAMES GOODWIN,

President. Examination.

The Bonuses divided Annually, either in Cash, Reduction of Premium, or in addition to the sum Assured, whichever of these three ways the Assured may each year desire, after being a Policy holder for Four Years, at which period a Bonus is ayable for the Four Years—Annually afterwards. THIRTY DAYS allowed after each Payment decreased the without Forfeiture of Premium becomes due, without Forfeiture of
