Here and There

Nova Scotia has adopted the "drive to the right" rule of the road, the bill providing the change having received the assent of the administrator of the province.

The year 1922 was a banner year for Montreal in the number and tonnage of ships which came to the port, a total of 6,983 ships of 13,039,699 tons arriving, as compared with 5,541 ships of 9,735,450 tons in 1921.

Canada led the world in 1922 in the export of raw furs to the United States. The total fur catch for that year was over 4,000,000 pelts, valued at \$16,000,000. While the general price of furs shows a downward trend, the total catch shows a remarkable increase.

Four of the Canadian Pacific "Empress" liners, the Britain, the France, the Scotland and the India, are to load grain at Quebec during the 1923 season, and new berths have been provided for these vessels near the grain conveyors, at a cost of \$300,000.

When she was alighting from a street car in Vancouver, Mrs. Rose McLaren received injuries which prevented her from concentrating and temporarily did away with her earning power as a spiritualist or psychic reader. She was awarded \$1,250 against the railway company.

The addition of the 17,000-ton "Montclair" to the Canadian Pacific "Mono Class" fleet marks an important development. Not only is she the largest one-class-cabin ship sailing to and from Canadian ports, but she is the largest in her class on the Atlantic. Her length is 613 feet and breadth 68 feet. Because of her size she will sail to and from Quebec.

Approximately 8,000 tons of silver ore are waiting shipment from the Keno Hill, Yukon, mines. This quantity represents the winter haul. Another 2,000 tons may be moved this summer, making the total silver shipments ten thousand tons for 1923. Such an output is worth about \$2,000,000, high grade ore running from \$200 to \$300 per ton.

"The greatest feat of steam transportation to my knowledge," said C. E. Stockdill, of the Canadian Pacific Railway, recently, "was the movement of the grain crop of 1922." From Sept. 1 to Nov. 31, a period of 91 days, the Canadian Pacific Railway loaded and shipped an average of 1,265 cars per day. This requiring the dispatching of a train every 45 minutes during that entire period, carrying more than 1,000,000 bushels daily. This movement exceeded even that of the bumper crop year of 1915.

One of the many instances of the splendid work carried out at the Liverpool docks is afforded by the Canadian Pacific liner "Metagama." On a recent arrival at that port she started the discharge of her cargo and coaling at 6 o'clock in the morning. Allowing for the usual dinner hour, she took on board in her side bunkers 1,000 tons of coal, which was completed by 2.45 the same afternoon. At the same time she discharged 1,700 tons of cargo, the greater part of which consisted of package freight, completing this operation by 7.15 the same evening.

Peerless Fence
Stands every test

Nothing but the highest quality materials go into Peerless Fence. We can recommend it unreservedly.

Bull strong, pig tight, chicken high—there is a Peerless style for your every fence requirement. All are heavily galvanized and give years of satisfactory service. Come in and let us show you.

JOHN MITCHELL

Roguing Potatoes.
The average yield of potatoes per acre in the Province of Ontario for the past thirty-six years has been about one hundred and fifteen bushels. The yields vary greatly. In 1917 there were variations in Ontario from twenty-five or less up to seven hundred bushels per acre. People are realizing more and more that for high yields of potatoes conditions must be favorable. It is important to have good fertile soil well cultivated and to plant a liberal supply of seed of the best varieties at the proper time. Seed potatoes somewhat immature which have been produced in a cool climate, and which are comparatively free from disease, are apt to furnish seed of high quality. Even under these conditions it is well to carefully inspect the seed before planting and to thoroughly rogue the growing crop.

A potato field is rogued by removing the undesirable plants. A thorough roguing of the growing crop once or twice during the summer is one of the most effectual ways in ridding the field of a number of the potato diseases. This operation would also insure the immediate removal of the weak and unthrifty plants which are sure to produce undesirable seed. Potato growers sometimes go through their fields and remove all plants which are not true to type. When roguing is done with a double object of eradicating diseases and of purifying the variety decided advantages are sure to follow. Thorough roguing is one of the best methods of securing pure, healthy seed of high quality.—Dr. C. A. Zavitz, O. A. College, Guelph.

If troubled with mustard in grain crops, spray with a 20 per cent. solution of iron sulphate (two pounds of iron sulphate to each gallon of water.)

Every farm and country home should feed itself, and to do this it is necessary for each family to grow garden vegetables and small fruits.

All corn cribs and grain bins should be carefully inspected to see that they are rat and mouse proof. A concrete foundation for storage buildings is advisable whenever it is practicable.

For Sale
A small square Chickering Piano
Apply to Mrs. Kay, Mill street.

For Sale
Good Kitchen Range in first class condition. Lighter Day high oven, will be sold cheap. Apply at Review.

For Sale
York Sow and 7 pigs, priced right. Wm. Attridge. Phone 26-5

For Sale

Having had 14 years in the auction business in Western Canada and Central United States enables me to handle your sale to the best advantage.
I specialize in live stock and general farm sales.

Strawberry Plants
Howard No. 17
More dollars are made in growing this wonderful Staminate variety than any other kind. All growers of our acquaintance who have fruited it, say the same. Plants very vigorous with perfect foliage. Berries large, firm, very beautiful and delicious. Season very early to late. We picked our first berries for market last year (1922) on June 5th, and had good berries well into July.
Plants \$1.50 per 100. \$10 per 1000

To-day

THE RED CROSS OF ONTARIO
asks the generous people of Ontario to come to the help of
COCHRANE
an Ontario town.
3,400
people live in Cochrane;
780
have had typhoid fever or are now sick. The town itself has gallantly carried its burden until now.
The Red Cross asks Ontario for
\$75,000.00
in order to run the Emergency Hospital with 20 nurses and 80 beds: Also to care for hundreds of convalescents still urgently needing special food and care to restore them to health.
Please send your contribution to the Hon. Treasurer, Ontario Red Cross, 410 Queen Street, Toronto.
