ATHENS MINERAL SPRING

The Athens Mineral Springs are to be developed by their new owner, Mr W. H. Smart, and the water, famous here for its curative powers fifty years ago, is to be made available to the public. The history and nature of the Springs form an interesting theme, and we purpose in next week's Reporter telling the story and giving an idea of the scope of Mr Smart's contemplated development.

HARVEST THANKSGIVING

Preparations are being made for the Annual Harvest Thanksgiving services throughout the parish of Athens and Lansdowne Rear. The first service will be held in Christ's Church on Friday evening, Sept. 27 at 7.30 p.m. when evening prayer will be said; the recently appointed rector, the Rev. W. G. Swayne will be formally inducted, and the new pulpit and hymn boards dedicated by the Very Rev. E. J. Bidwell, D.D., Dean of Ontario, who will also be the select preacher for this service.

The Thanksgiving services will be conducted on the Sunday following, Sept. 29, at Trinity, Oak Leaf at 10.30 St. Pauls, Delta, at 2.30 and at Christ's Church, Athens, at 7.
Special and appropriate hymns and anthems will be sung at all services, and the churches decorated in harmony with the occasion.

A special Thanksgiving offering will be made at all the services. The public invited.

A NEW WATERWAY

It looks just now as if a new motor boat water-way were going to be opened between the Rideau and the St. Lawrence. This week engineers were at Morten looking into the project of building a lock that will admit small motor craft from the Rideau to White fish Creek, which is now navigable to Delta Lake. The Whitefish is rather crooked, but time is not a controlling factor with pleasure-seekers. The run across Delta Lake among the islands to Lyndhurst is a delightful experience, but when that village is reached it is not clear at present just what will happen. Perhaps the Dominion member, Mr White, will have a marine railway constructed to carry boats to the basin below the falls. Anyway, it is evidently intended that motor boats shall in some way reach the St Lawrence by this route, for the Brockville Times of Monday last says:

Since the advent of motor boats to the beautiful chain of waters and the fine fishing between Lyndhurst and Gananoque, it has been felt that an improvement to the channel by the removal of obstructions at a number of the rapids between Lyndhurst and Marble Rock would be a great boon to tourists and people living in the vicinity.
Learning of this the indefatigable local member, Mr Dargavel, took up the matter with Hon. Dr. Reaume, Minister of Public Works, with the result that Mr Halford, Chief Engineer of the Department, was sent to Lyndhurst and on Thursday and Friday went over the course in company with Mr Dargavel. No great difficulties were met with and it is expected that a sufficient sum will be placed in the estimates to cover the cost of the work.

CONSTRUCTION OF C.N.R.

(Smith's Falls News)
The C.N.R. gang are now busy filling in Lamsden Swamp about 8 miles north of here. This is the place where the engine sank out of sight and had to be lifted up by the derrick.
It is expected that construction trains will be running over the new line from here to Ottawa within two months. If permission from the railway commission is secured freight trains may very shortly follow them.
It is expected that work will be commenced at once on the construction of a bridge over the Rideau river.
Mr J. Carr, C.N.R., Bridge Inspector has been in town for the past few days arranging details. The bridge which is to be built here is a Scherzer Roller Lift bridge, there are only two of this kind in Canada. It is expected this bridge will be finished within a month. Another bridge has been completed over the river at Richmond.

To Use Concrete For King Edward Road

A portion of the King Edward Highway is to be built of concrete, the contract for its construction having been let on Sept. 11th by the Honourable J. E. Caron, Minister of Agriculture and Highways of the Province of Quebec. The King Edward Highway is the Canadian section of the International Highway, connecting Montreal with several large cities of the United States. Ultimately, it is expected that this road will continue as far south as Miami, Florida.
It was the original intention that the entire highway should be built of macadam; but the Honourable Minister, who has made the decision, has become interested in concrete roadways and has decided upon this important

undertaking as a good place to try it out. Governments and municipalities are gradually coming to recognize the necessity of a more permanent form of roadway construction. That concrete is the material which best fulfills all the requirements of a permanent roadway, is a fact that will ultimately obtain world-wide recognition.
