W. W. Everitt,

AN ARTISTIC CHIFFON DRAPLIA

A Gown of Silk Crepe de Chens
Trimmed with Soft Ruffles and
Silk Flowers Makes a Charming Evening Toilette.

Soft billowy ruffles that are interspersed with bunches of the daintiest of
silk flowers form the latest trimming
upon gowns designed for evening wear.

A very handsome toilette of iris blue
silk crepe de chene has the skirt
trimmed with ruffles of the same color
chiffon in whose folds are frequently
scattered bunches of small purple silk
flowers. Two frills are draped down
the front rounding away sharply at the flowers. Two frills are draped down the front rounding away sharply at the knees to produce a tunic effect. The third is brought straight down the middle of the front panel to the foot of the skirt. The effect is oddly beautiful.

The bodice is made of silk crepe scat-tered with roses that are "stuffed" and appliqued upon the goods to stand out in as impressionistic a manner as pos-

The neck is cut very decollette and is The neck is cut very decollette and is finished by a corrugated band of creps de chene caught in the center with a buckle of mother of pearl.

Over the shoulders are straps of rich purple velvet, one of which is fastened under a bunch of silk roses. The other is finished simply with a bow of velvet.

HELEN GREY-PAGE.

These are the newest novelties in neck furnishings for spring shirt waists. The smartness of the high standing collar is combined with the comfort of the turn-over design. String ties are slightly broader on the ends.

SCIENCE HINTS USEFUL IN DAILY LIFE.

A stream of hot, dry air is now forced into the nasal passages as a treatment for some forms of headache.

Consumption is more prevalent among makers of needles and files than any other class of laborers.

Dr. Rabinowitsch, a noted European provide of the class of laborers.

Dr. Rabinowitsch, a noted European physician, treats his erysipelas patients by covering the afflicted part with a moist gauze, over which is passed a burning torch of cotton, saturated with alcohol, until the pain is beyond endurance. This cooking process is repeated three times in twenty-four hours and a cure is effected in from twenty-four hours to seven days. Over two hundred patients have suffered the

treatment.
One of the chief causes of nearsightedness in schools is the disproportion between seats and desks. This causes writers to hold their heads down. Blood is thus pumped into the arteries of the

is thus pumped into the arteries of the eyes and stays there by its own weight, and also owing to the compression of the veins of the neck, caused by stooping. In primary schools the percentage of nearisighted pupils is very small, while it is over nineteen per cent. in the high schools.

Ringworm is a disease which is exciting attention in medical circles by reason of its tendency to become epidemic in schools. Some of its forms are well nigh incurable. Of seventy-two cases recently treated in a New York hospital for seven months, only twenty-two were cured.

Dr. Traucott, of Liege, France, who has been investigating the results of

has been investigating the results of inebriety, has come to the conclusion that there is a species of somnambu-lism reached at certain stages of alcoholism during which the victim seem holism during which the victim seems to be entirely sane and normal, and yet at the same time is unconscious of what he is doing, or, at least, has no consciousness of it afterward.

The typhold fever germ finds its match in the Arabs, whose blood resists its attacks. Arabs do not have typhold.

phoid.

The French people, who are now almost the smallest in Europe, were, in the days of the Romans, an almost gigantic race.

DARK LIGHTNING FLASHES. Lord Kelvin once wrote from Aix-les-Bains: "Last night during a thun-der storm in which brilliant flashes-single, double, triple, or quadruple-followed one another at intervals, I was followed one another at intervals. I was surprised to see with great vividness on a suddenly illuminated sky two nearly vertical lines of darkness, each of ordinary jagged appearance. I remember to have seen two real flashes of just the same shapes and relative positions and I concluded that the black flashes were due to their residual influence on the retina. I turned my eyes from the dark sky outside to an illuminated wall inside the house, and I again saw the same flash."

Woman's Welfare.

Paine's Celery Compound

Gives and Maintains a Perfect Condition of Bodily Health.

The great susceptibility of women to nervousness and worry is heightened by the fact that in the majority of cases they lead confined and monoton-ous lives, narrowed down to the four walls of home the greater part of the

Paine's Celery Compound is just what such nervous and depressed woman need to restore their nerves to energy and to lift them out of their energy and to lift them out of their constipated dyspeptic habit of body. No other remedy known to medical men is so rich in flesh forming and energy-producing constituents for wo-men as Paine's Celrey Compound. It is also a true and unfailing regulator, keeps the blood pure and rich, and

tried many medicines and doctored a great deal, but never received a hundredth part of the value from them that I obtained from Paine's Celery Compound. 'After using three bottles Lean sleep well my headaches have er than I have been for years."

George-I wonder why Ethel calls her chrysanthemum?

Binks—She may have discovered the fact that you haven't a scent.

A hearty appetite does not always indicate a healthy condition. It is not the quantity of food which is eaten, but the quantity which is easten, but the quantity which is eaten, but the quantity of food which is eaten, but the quantity which is eaten, but the quantity of food on unurity which determines the actual value of the vicious system of farming the taxes and made the collection of the taxes and made the collection of the revenue a state affair. He has reorganized the postal system on the ways in the country will be remedied.

The only place in the world where violin making may be said to constitute the staple industry is Markneukinchen, in Saxony, with its numerous surrounding villages. There are altogether about 15,000 people in this dstrict engaged exclusively in the manufacture of violins. The inhabitants, from the small boy and girl to the wrinkled, gray-headed veteran and aged grandmother, are all constantly end to the vicious system of the taxes and made the collection of the revenue a state affair. He has reorganized the postal system on the vicious system of the taxes and made the collection of t
