MAY IRWIN.

Canada's Favorite Comedienne.

One of the leading comedians of America since to-day is May Irwin.

A daughter of Canada. In these days of Ibsen plays with their dull dreary per-

sonalities, of problem plays with their whited sepulchres, of the puffy busts of a plain plump, and of pretentious other

ladies dressed in the costumes of some country represented. We have not

seen such a picture of life as they

live in Gethsemane, we thought as they

had no opportunity of seeing the

in the case, but we hit Charlie

Bader, Lofty Elige, and Marvined at the

Lin. Last Saturday last I was at Chat-

ham. At first I was in the water. It's also worn sometimes

I found it was out in the yard play-

ing with her little girl and boy. The

Saturday Charlie Stott and Carl

Brettell turned over to my care and

we played in the garden. We saw a

boy, myself among them, not him

rode my bicycle up and we played

in the railroad station. We saw a

boy, myself among them, not him

rode my bicycle up and we played
