

Sore Lungs

We want everybody who has a hard cold in the chest to use Ayer's Cherry Pectoral. Our long experience with it, over sixty years, tells us there is nothing else equal for coughs, colds in the chest, bronchitis, hoarseness, sore lungs, weak throats, and asthma. Doctors tell us the same thing. Ask your doctor about it.

We have no agents in the West. The formula of all our medicines is given in the Lowell, Mass.

Don't Start Golf Too Early.

When is a man too old to play golf? Dr. T. C. Allbutt, regius professor of physics at Cambridge university, recently issued the dictum that the law ought to forbid any man playing the game before he is 35 years old, until which time he is capable of more vigorous athletics. Dr. Allbutt left it to be inferred that golf should only be regarded as a kind of last resort for those tottering down hill towards senility.

The presentation of the golf problem in this form led to inquiries among the best known exponents and amateurs of the athletic games. As a result the following has been compiled, representing theories as well as practice: Cricket should be abandoned at 40 years, football at 30, hockey at 35, lawn tennis by women at 45 and by men at 60, and rowing at 60.

The age for quitting cycling is not definitely fixed. Tegetmeier, for instance, only abandoned the sport in 1906, owing to failing sight. According to the finding golf should be played while life lasts, but should not be begun too young. Scotland's ice sport—curling—alone takes no regard for time but looks forward to eternity.

Many Women have Kidney Trouble

and don't know it. They attribute their ill-health to weakness, dragging pains in the hips, backache, nervousness, tiredness, headaches, are more often caused by sick kidneys. If your kidneys are not well, the other delicate organs are disturbed and inflamed, bringing on the numerous female weaknesses and the serious troubles often attending pregnancy.

Bu-Ju

THE GENTLE KIDNEY PILL

These cause of "Female Weakness" because they cure the kidneys. They promptly restore the kidneys to health, rid the system of poisons, take away the pains, and make the delicate organs well and strong.

Not of Much Account.

The lord chief justice of England used to sing in the choir of a parish church. A woman once asked the reverend to point out Sir Richard Webster as he then was. The reverend replied, "Well, ma'am, that's the vicar and them's the curates and I'm the vergar, but as for the choir, as long as they do their dooty we don't inquire into their hante-cedents!"

Delicate Operation.

"Yass," suddenly declared Cholly Bransless, "I'm going to work. I've made up my mind."

"You have?" exclaimed Miss Peppery. "My! What a delicate operation!"—Catholic Standard and Times.

THOUGHTLESS TRAPPERS.

Torture to Animals and Ruthless Destruction of Game.
People who have not seen can form no idea of the suffering trappers cause nor of their ruthless destruction of game. Nothing escapes them. Even the squirrels are sacrificed to bait traps for marten and fisher, and not only the squirrels, but all kinds of birds, whether game or song birds.

In trapping mink, otter, beaver and a few other fur bearing animals the trap is nearly always set near the water, where the animal when caught can drown itself, thus ending its suffering.

But with bear, marten and fisher it is different. The bear must drag a heavy clog about until it catches in some root or bush. There he must wait until the trapper comes to kill him, and this in some cases is not for days. The bones of the leg are almost invariably broken by the trap, and the leg swells to incredible size. One trapper in one day shot nineteen large blue grouse merely to try a new rifle. The birds were nesting. He had no use for them, and not one did he ever bring to camp.

Years ago in British Columbia an old trapper camped near our bear hunting party. He shot everything he could find, even little ducks and marmots. A goat he killed fell over a cliff, and as it was harder to recover it than to shoot another he shot another. He was trapping beaver out of season and boasted of having caught one that was about to become a mother.

I have seen the spot where a bear fast in a trap had been caught for more than a week in a thicket through which it was impossible to drag the trap and clog. I once knew an old French trapper who shot seventy-three moose and elk in one winter for bear bait for the spring catch. I asked why he killed so many. He said that he wanted a big stink in the spring so as to bring the bears around. All of the animals he had slaughtered for a spring stink were shot with a revolver, for they were snow bound and could not escape. He told me that he dropped five big elk in one pile. This frightful destruction by trappers has exterminated the game.
