ATHLETICS

Billy Carroll reports a brisk demand for entry blanks for the ten-mile road race on Labor Day, and thinks that a record list of entries will be received. Several Toronto runners have announced their intention of starting and two speed merchants from Dundas will be on the job. It is likely that Bob Phinn will be favorite for the event, despite the fact that Pearce beat him at Madoc last week. Harry Barnfield has decided to start the Strand Athletic Club's representative, Ernie Devine, and while he is not claiming that his man is going to land the bacon, he thinks that it will help to fit him for some of the races later on. The race will start from the Herald office at 10,30 on Labor Day and will be to the five-mile post and return, going and returning by way of James and Barton streets.

The announcement that Bobby Kerris to start in the sprinting events at the night meet at Britannia Park, has created a great deal of interest in athletic circles, and as it will be his first appearance in a race here this year, he will certainly be one of the features of the meet. The other big feature will be the special five-mile race betwen Alf Sellers and George Athans, and there has been considerable betting on the event already, Adams being a 3 to 5 favorite. The entries for the road race in the morning and the open events at Britannia Park at night ran loss on Friday next with Billy Carroll or with Charles J. Weber, 55 John street north.

CHANCES ARE AGAINST IT.

City Not Likely to Accept the Hospital Proposition.

Public Schools Opened But Rush Comes Next Week.

Scarlet Fever In the Boy's Home Causes a Scare.

The chances of the City Council acting on the Board of Health's request to stop work on the proposed \$10,000 addition to the isolation buildings and submit a by-law in January to the ratepayers to tal on a separate site are not very bright. "I was opposed from the start said Mayor McLaren, "to spending any more money on the hospital grounds. I more money on the hospital grounds. I consider it a waste, because it will only be temporary. It is not only this money, but whatever is wanted after this addition is made. However, I don't think the Council will interfere. Although the aldermen felt like turning down the scheme to enlarge the present buildings after the defeat of the hospital by-law, they felt that if they did this they would be accused of doing nothing when increased accommodation was needed."

"We don't care what they do," said T. H. Pratt, one of the Hospital Governors, to-day, when told of the Board of Health's action last night. Mr. Pratt says that more accommodation for these patients is required and the position of the Hospital Governors is that they don't care whether the old buildings are subayed or a new hospital built as long don't care whether the old buildings are enlarged or a new hospital built as long as there is no further delay. "By enlarging the old buildings, however," said Mr. Pratt. "we will save the city \$10,000 a year for the next ten years. 'A separate hospital would mean a head for the institution, nurses at \$25 a week and other heavy expense. The hospital would have to be kept open even if there were only two or three patients in it. The records at the City Hospital show that at frequent periods there are only that many cases."

An incident in connection with the outbreak in the Boys' Home shows how much people are alarmed over the epidemic. When the report was printed in the papers yesterday that the Board of Health was likely to quarantine the place the workmen who are installing the new boilers and heating apparatus became alarmed and this morning they were off the job. A new laundry is being built, and the men refusing to do the work will cause considerable inconvenience. The lady teacher also failed to put in an appearance to-day.

put in an appearance to-day.

The Public Schools of the city reopened to-day, after the long summer vacation and the Board of Education officials were busy to-day straightening out the classes. "We will not be able to tell until Tuesday whether we are going to have much crowding," said Inspector Ballard. "On account of the Collegiate not opening until then and many of the children not returning to school until after the holiday, it is difficult to say yet how hard pressed we will be for accommodation." The old Wellington Street School, which has been condemned, was open to-day, but the inspector hopes to be able to close it permanently within a few days.

The Canadian Northern Railway, which expects to have its road running through Hamilton within a year of so, has buckled down to business, and this week a party of the Mackenzie & Mann engineers are busy surveying the route-between Niagara and Hamilton.

Relief Officer McMenemy stated to-day that the letter written to a local paper yesterday about the raffic of a paper yesterday about the raffic of a paper yesterday about the raffic of a impression. John F. Shuart was granted a permit to day for a brick house on Locke street, between Herkimer and Stanley avenue, to cost \$2.500.

The Board of Hospital Governors The Board of Hospital Governors yesterday afternoon approved of the plans for the proposed \$10,000 addition to the isolation buildings, and decided to request the City Council to call for tenders. W. H. Nicholls, butcher, who has the meat contract at the Hospital, asked that he be paid ten cents instead of nine cents a pound, as he was annulcing. nine cents a pound, as he was supplying hindquarters, which were quoted on the Toronto market at eleven cents a pound. The request was not entertained. Chairman Billings is going to take a trip to Vancouver, and will be away six weeks. Col. A. H. Moore was appointed Chairman pro tem. during his absence,

Hon. Frank Cochrane is here to-day in connection with the city's application for patents to Coal Oil Inlet. He is at-tending the Grocers' hump across the bay this afternoon as the guest of Mayor McLaren.

The box seats at both sides of the house were destroyed, about all that is left of them being the walls and the brass railings.

The cause of the fire is a mystery, but is thought that it was either due to a lighted cigarette or cigar being left around, or by electric wires. Only yes-terday a new meter was put in. The electric switchboard at the back of the clectric switchboard at the back of the stage was completely destroyed, all that was left being the marble base, a few brass strips from switches, and a couple of wires with the insulation burnt off. It is thought that the fire started some hours before it was discovered, and smouldered away until It got a good start, and then was confined to the back for a long time on account of the screen. The glass skylight did not break and thus the heat did not get a chance to escape, turning it more towards the screen, which was gradually eaten through. The skylight was left hanging on one of the steel girders at the top of the building.

A BEAUTY.

P. D. Crerar, K. C., Buys a Magnificent Summer Home.

Last Friday Mr. P. D. Crerar, K. C., purchased a very beautiful spot in Mus-koka. The property is known as Loon Island, and covers an area of twenty-three acres. The former owner was Sir Island, and covers an area of twenty-three acres. The former owner was Sir Wilfred Hepton, Mayor of Leeds, England, who has been coming out to Canada every year with his family and enjoying this magnificent summer resort. Mr. Crerar's family have been spending the summer about one and a half miles from this spot, and were packed upready to return to Hamilton when he phoned them on Friday night of the transaction, and told them to stay there a while longer, and move into the new premises. They moved at once, and were settled at 1 o'clock Saturday afternoon. The mansion is known to be one of the most artistic in Muskoka, as well as being beautifully furnished from top to bottom.

'Its situation is where the Joseph riverenters Lake Joseph, so that it is equally convenient to points in Lakes Joseph and Rosseau. It is within three miles of Lake Joseph station, and passengers from the 10 o'clock train can reach the place before 3 o'clock in the afternoon. To this unique corner of the district Mr. Crerar and his family intend to betake themselves in futuer summer seasons.
