on the female department, and three, Miss Ellen D. Traphagen, we Louisa McFarlane, and Miss Julia Blake, from the primary partment, were forced over the bannisters and fell with the chilonints the well. They were, however, happily not seriously

department, were forced over the bannisters and fell with the children into the well. They were, however, happily not seriously injured.

The time in which all took place was much less that than we have occupied in describing it. Meanwhile the excitement in the street was intense. The alarm of Fire had collected a dense crowd, and though the police were early on the spot, in strong numbers, they had great difficulty in obta ning a passage through the excited assumblage.—Finding all their efforts at forcing the front doors usedess, the police entered the building by the back way, and broke open a door leading into the well, from the busement. The children were then taken out, nive and doad, and conveyed to the Station-house near by, followed by a large number of mothers and sisters, each one anxious to ascertain if her own little relatives were uninjured. In the station-house, the wounded were placed in cots, and efficient medical aid immediately summoned. The dead were laid out to be recognized by their friends. We are incompetent to describe the heart-rending grief of the searchers, while looking among the mutilated bodies for their little ones.

Accustomed as we are to frightful cassatties in this city, we have never seen an secasion that called so loudly for the synapthics of the beholder. Many mothers were there, who, but a fow ninutes before had equipped their only children for school, and now were suddenly called from home, to look among the fearfully mutilated hodies for all that remained of their offspring. Others there were, who after searching in vain for their lost ones, again and again turning over the ghastly remains, were almost proxitated with by at discovering their children alive and well. We leave mothers and fathers to imagine the scene, as they only can describe it, we cannot.

New York Courier & Enquirer, Noo 22.

In New York there are some seven thousand grog shops, of which fifteen hundred are known to be unlicensed. We learn from a recent report of Marshal Tukey to the Boston Common Council, that the whole number of places in which liquor is sold in the city of notions is 1,800. In ward 1 there are 335 places; ward 2, 285; ward 3, 120; ward 4, 218; ward 5, 36; ward 7, 186; ward 3, 97; ward 9, 26; ward 10, 111; ward 11, 67; ward 1, 295. American dealers, 490; Germans and Swedes, 110; Irish, 900. Sold in cellars 310; above ground, 1,196. Male dealers, 1,374; femule dealers, 126. Sold in cyster and ice-cream salcons, 53; bowling alleys, 90; buildings for same, 14; groceries, 469; other places, 1,031. All first-class hotels, except four, have an open bar for the sale of liquor. In answer to the eight interrogatories, requiring him to give an opinion of the means best calculated to check the progress of crime in intemperance, whereby our faxes are greatly increased, and the reputation of the city injared, Mapsial Tukey replied, "Execute the Laws."

There is again trouble among the Mormons. Brigham Young, the temporal as well as spiritual Governor of Utah territory, having fillen out with some of his chief official coadjators, has ordered them to abdicate his dominions. These functionaries, on the other hand, accuse the Governor of analyzactice, in having aquandered twenty thousand dollars of the money appropriated by Congress for the general benefit of the people of the territory; in addition to which, he attempted to get possession of twenty-four thousand dollars which was in the hands of the Secretary, who is one of the exited officers. The Mormons have recently made a settlement at San Bernardine, in Les Angelos county. They are about to build up a city at that point, which is expected to contain six thousand inhabitants in six months. They are talking about a railroad from Great Salt Lake City to that point.

A man in New York has discovered a new mode of "shooting shead." It is a Mr. Daggett, who has acquired so no notoristy by his connection with a Flying Machine, and he undertakes to propel an engine by the action of powder instead of steam. The Times are the power is obtained by regular explosions of small quantities of ganpowder. A working model in operation is estimated to consume about two onnees of ganpowder per mile with the proportionate weight offour or five cars attached. It can be used on common roads, applied to common carriages, and it is said to be perfectly noiseless in its operations. It is said, several successful tests have been made in the presence of two or three scientific men and engineers, and that Mr. Lee, Superintendent of the Boston and Providence Railroad thinks favourably of the invention, and has consented to lay the subject before the Directors of that road.

ENGLAND.

PHILLIPS' PATENT FIRE ANNHILLATOR.—With a view of adopting the fire annihilator machines at Knowsley, as a protection against fire, Lord Derby put the efficacy of the machines to a sovere test on Wednesday last at Knowsley. He had the building in the park, known as the dairy which his lordship is about to poll dawn, prepared for the purpose. The building is circular and of considerable dimensions, with windows and doors all round, all of which were taken out, admitting a strong current of air, which was increased by a sort of founce wentilator opening through the roof. This was filled with a very large body of dry poles, pine boards, a large quantity of dried faggots, and the place well bedded with shavings, &c. For the purpose of keeping up a fierce fire, a dozen tar barrels were placed in the centre of this pile. Mr. Francis Morton of the firm of Francis and H J Morton, of North John street, the sole agents for the patent, attended and minutely described the invention and the machines to Lord and Lady Derby. The fire was allowed to larm some time when his lordship gave the word, and the machines were struck off; from the moment the vapour was brought to bear upon the berning pile, the flames became instantly controlled, and were extinguished with the marvellous rapidity which characterizes the invention and in a few minutes the whole body of fire was put out.

All present expressed their satisfaction at the complete success which had attended the trial.

The London Times says that there is now no doubt of the permanency of the crystal palace, her Majesty having expressed herself favorably to its remaining.

ie London Times says that there is now no doubt of the per-nery of the crystal palace, her Majesty having expressed herselt ubly to its remaining.

IRELAND.

An Irish paper says, that an epidemic of a serious character, causing very extensive mortality, is at present very prevalent among the children in the County of Armagh, and other parts of the North. The affection is of the threat, and presents something of the character of croup and scarlatina, and in most cases has resisted the anticating of medical treatment. racter of croup and scarlating application of medical treatm

NOVA-SCOTIA. (From the Halifax New Era, Nov. 28.)

(From the Halifax New Era, Nov. 28.)

There are not at the present moment two distinct parties in the Legislature, as there were last session. For the moment the old line of definarcation has been ewept away, and the complexion of the present House is varied by men of every shade of political options. At the commencement of the last session, every man knew the ground on which he stood—he had fought his way to the judicities halls, parely as a political partizan, and each man ranged himself by the side of his respective leader. The question on which the public mind could unite, was clearly defined—every man understood it—the advocates of the new system of Government were victorious, and the result was, the formation of the present ministry.

If we look on the Boar of the House for the old Liberal majority—whore is it? The Hon. Speaker may support the ministry—he may there to the distribution of the control of

A SCHOONER CAPSIZED AND TRIRTY PERSONS LOST.— The schr. Newholl, Capt. Maine, was espeized a few days since on Lake Michigan, with about thirty persons on board, all lost.—She was on her passage from Chicage to Graud Traverse, with full supplies for a lumbering establishment at the latter place.

PRENCH OFFICERS AMONG THE KAFFIRS.—It is stated that a French officer of distinction named Parel, is among the Kaffirs, as a leader of the forces against the English. He is said to have acquired a great ascendancy in the country by his bravery and intelligence.

THE TRUE LIFE.—The mere lapse of years is not life. To eat, and drink, and sleep to be exposed to darkness and light, to pace round in the mill of habits and turn the wheel of health, to make reason our book-keeper, and turn thought into an implement of trade—this is not life. In all this but a poor fraction of she consciousness of humanity is awakened; and the sanctities still-slumber which make it mest worthy while to be. Knowledge, truth, love, beauty, goodness, and faith, alone can give vitality to the mechanism of human existence; since the music that brings childhood back, the prayer that calls future near, the doubt which makes us mediated, the death that startles us with mystery, the hardship that forces us to struggle, the anxiety that eads in trust—are the true nourishment of our natural being.

ELECTION.—The Election for one Member to represent George-town in General Assembly, is going on to-day—and, it is thought, will be sharply contested. The only Candidates are Martin Byrne, Eaq., who is said to be a supporter of the present Government, and R. M'Aulay, Esq., formerly a Member of the Assembly, who takes his stand on the principle of the exclusion of Members of the As-sembly from certain Offices of Emolument under the Government.

Fire.—On the morning of Saturday last, at about six o'clock, a brilliant light was observed, by those who were stirring in Town at that early hour, in the direction of the Princetown Road, proceeding evidently from some large building on fire. On the alarm being given, several persons immediately proceeded to the spot, with the Barnek Engine and the Military. The building turned out to be a large new dwelling house, in the course of erection and nearly finished, for the Hou. Chas. Hensley, on part of the grounds lately known by the name of Charlie's Hope, on the West side of the Princetown Road. With the atmost exection of all on the spot, the main building, in which the destructive element had had fall and undisturbed scope for some length of time, was catirely destroyed, but a projection in the rear, intended to be used as a kitchen, was saved without much damage. Had the building been uninsured, the loss would have fallen heavily upon Mr. Silas Barnard, the contractor, but fortfinately, about a mouth since, an insurance was effected at the Equitable Office, (of Lonlon,) for about £400 Halifax Currency, which will make the loss more easily borne. Mr. Barnard is a considerable loser in tools, lumber, shujgles, &c., uninsured. No cause can be assigned for the origin of the fire. Mr. B. went over the building himself at 8 o'clock, on the previous evening, leaving all safe—as he thought. No person slept on or near the premises.

when the punite mind come unite, was meanly unined—every into anderstood it—the advocates of the new system of Government were victorious, and the resist to the formation of the present anistry.

But time his rolled on, and changes have marked its ebb and flow, since the day of its formation. With the success of the struggle, the struggle itself cessed—and more uninds relapsed into comparative indifference—and he who expects that the present diversement will be sustained by that party, the cased to reflect the altres—and most assertedly will not receive it.

Let us glance healily at the caising supect of affairs, and ascertain, if possible, if we are correct in the above.

Up to the present moment, it is not known, which of the political parties that divide public opinion in this country, is appeared to be subjectly claim a majority—the Likerals smile at the idea, and quietly await the denomement. We will not known and quietly await the denomement. We will not known and quietly await the denomement. We will not known and quietly await the denomement. We will not known and printed and the confidency of the present Chines, or who are supported to be supported of the supported of

The body of a man, supposed to be an American fisherman, was found near Treendie Harbour, about three weeks since, with a mark on his right shin bone, about six inches above the nucle, supposed to have been caused by a blow of an axe. Two other bodies came on shore at Savage Harbour on or about the 28th ult.; on the arm of one of them was marked, in black ink, William Wallace and Mary-Wallace. They were both decently interred in the Presbyterian Church Yard at St. Peter's, by order of James Coffin, Esq., J. P. J. P.

Royal Agricultural Society.

MONTHLY COMMITTEE MEETING, DEC. 3, 1851.

PERSENT : Hon. Stephen Rice, Present.

Resolved, That the Committee appointed to make the contract be requested to examine the work, and ascertain whether Mr. Pippy has executed the same according to his contract, and send in their

has executed the same according to his contract, and send in their report.

Ordered, That all Reports from time to time made by the Visitors of this Society, be entered in the Minute Book—and that all Letters written by the Secretary to the respective Branches and Depots, be entered in the Letter Book; and also that the Secretary do make an Index to the Minute Book and Letter Book, for the purpose of more conven isst reference thereto.

Ordered, That the Secretary do write Mr. M'Monagle, of Sussex Vale, New Branswick, enquiring whether he will exchange one of his Entire Horses for 'Saladin.'

Ordered. That the charges of the Visitor of the Branches, and Inspector of Turnip Crops for King's and Prince Counties, be paid.
On refering to the Report of Charles Stewart, Esq., respecting his visit to inspect the Accounts, &c., of the Branch Societie—
Resolved, That the Secretary be directed to write to the Secretaries of the respective Branches, enclosing a copy of the conditions required, in order to constitute a Branch Society, and to state that he has directions—before the requisition of any Branch Society be complied with—to ascertain that the necessary conditions are completed.

By Order.

By Order, GEORGE BEER, Secretary.

The Steamer Rose brought over on Frida y, the mails due on that

The Schooner Damzel which had been engaged to bring over from Picton, the mails due last Tuesday, not being able to make way against the North winds, the Steamer Rose was despatched on Saturday morning after her, and returned with her mails on the evening of the same day.

By a Proclamation in the Royal Gazette of vesterday, the General Assembly of this Island stands prorogued to Tuesday the 18th January next.

CHARLOTTETOWN, P. E. ISLAND, December 8th, 1851. To Captain R. Rollo,

42 Regiment, Royal Highlanders, &c., &c.

Sir; I take an early opportunity to return my warmest thanks to you, to Lieutenant J. W. P. Order, and the Petty Officers and Soldiers of the detachment of the 42d Regiment Royal Highlanders under your command, for the very efficient and energetic assistance afforded at the Fire which took place at my house in the vicinity of this Town on Saturday morning last. To their willing and skilled efforts, zealously sided by the Sergeant of the Royal Artillery and his men, and by such of the neighbours as were informed of the calumity, it is swing (under God's Previdence), that the building was not totally consumed.

Although the part of the building which remains is of little value when compared with that which was destroyed; still, it remains an honorable testimony of the very great and hazardous exertion made by these gallant men for its preservation.

I have the honour to be,
Your obedient Servant,
CHARLES HENSLEY.

CHARLES HENSLEY.

Birth.

At the Warren Farm, on Saturday, the 6th inst., Mrs. Lyall of a

Alarried.

On the 24th ult., by the Rev. D. Fitz Gerald, Mr. Heyman J. P. Terlizzick, to Elizabeth A. L., daughter of Mr. John M. Donnell, both of Charlottetown.

Died,

Litto,

At Halifax, N. S., on Wednesday last, William Arthur, fourth son of Thomas Owen, Esq., Postmaster General of this Island, aged 21. The deceased was on his return home from Liverpool, G. B., via Halifax, when attacked by a violent fever at soa, by which he was so speedily reduced, that he survived but a few days after disembarking. By the kind sympathy of his father's friends in Halifax, his remains were forwarded without loss of time to this Town to his afflicted relatives, and interred yesterday.

On Thursday morning, the 4th inst. Sarah A., aged 18 months, only child of Mr. S. C. Holman, of this town, late of Bostou.

At New London, on Wednesday, the 19th ult., John Adams, eldest son of Mr. Thomas Adams, in the 19th year of his age.

On Sunday night, Mr. Theophilus Rodd, Blacksmith.

Passenger.

In the Brig Rio, from Georgetown for Dublin-F. Longworth,

Ship News.

A letter dated Gaspe, Oct. 29, 1831, and addressed to the Postmaster, Charlottetown, has been handed as, wherein it is stated that the Sehr. Barbeanne, (Barbara Ann.) Franceis Candee, master, sailed from the above place, for Malpaque or Cascumpeque, P. E. Island, on the 28th Sept. last, having on board, besides the crew, the following passengers:—Mr. M. Donnell, Mr. M. Carthy and family, and a Miss M. Fannes, and that since her departure no tidings have been heard of her, and it is feared that she foundered at sea in the disastrous gale of the 3d October last. Should any persons have heard anything of either vessel or crew, they are requested to communicate the same either to the Post Office at Charlottetown, or to the Office of the Islander Newspaper.

(From the New York Herald, November 11, 1851.)

(From the New York Herald, November 11, 1851.)

Mr. E. Smith, of Provincetown, who has returned from Prince Edward Island, reports:—That schrs. Grafton and Cohannet, of Harwich; Naisd Queen and Charles Augustus of Hingham, have all been got off shore, and the last named eailed for home 20th ult.; schr. Rival of Trure, has also been got off. Schr. Melrose, of Provincetown, remained sahore at St. Peter's, and a contract was made with Gifford's Scrow and Lever Company of Provincetown, to get her off and deliver her at home for \$775. The night heads and forward part of a schooner with chain attached, came ashore on Hog Island, after the gale, name, &c., unknown. Appeared to he a small Vessel. The chain was of three different pieces, from half an inch to seven-eighths of an inch. Had a five-inch stay; the jib was 46 feet on the luff, had no bonnet, and had one reef in it. Schr. Eleanor M. Shaw, of Trure, which was seen near Malpeque during the gale, has not since been heard from. Mr. Smith reports that a part of the stern of a vessel, much broken, came on shore at Hog land, having "Eleanor" on it. Mr. S. visited schr. Eleanor, of Gloucester, ashore about 5 miles from the place where the plank was picked up, and accertained that k did not come from the Gloucester vessel, which remained unbroken. A schr. is sunk near Tignish; had two topmasts, and the heads of her masts were above water. Seven or eight soltrs, are sunk off the coast, between Cascumpoque and St. Feter's, whose names are unknown.

Schr. Princeton, of Gloucester, and it is feared she must be reckozed in the list of vessels lost off the coast of Prince Edward Island in the late gale.
