"August Flower" Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been afflicted with Neuritis of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head ached, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became sour, and I had such queer, tumbling, palpitating sensations around the heart. I ached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could get no sleep at all. I tried everything, and got no relief before using August Flower. Then the change came. It has done me a wonderful deal of good during the last few days, and I am enjoying a complete cure."
