Strathcona

GENERATORS CAUSE TROUBLE

(Saturday's Daily) The payment of an account of \$3,620

he Canadian General Electric Co. for

two new generators, recently placed in

ing power nouse, formed the subject of an animated discussion at the council

The hitch was owing to the fact that

new engine is now thought to be on |

an insecure base, or rather both are on

unced unstable; and bisides it is

the same base which has b.e. pro-

hinted by some of the board that there

may be imperfections in the generator

The contract price of the two genera-

ters, one 70 kilowatt and the other 200 kilowatt, the smaller of which is

now in use, is \$9900, to be paid, one

third on their arrival at Straincona,

one-third on their being placed in the

ower neuse and the ba ande afle four-

teen days continuous and sali-lactory

test. The larger engine and generator

peared in good condition the money e/-.
