neighborhood of Locre.' IRELAND NOT TO BE EXEMPTED. LONDON, To-Day.

Members of the labor deputation who waited on Premier Lloyd George in the House of Commons on Monday, in regard to the Irish Conscription, admit, says the Daily Mail, that Mr. George spoke frankly and firmly and listened patiently to the statement prepared by Arthur Henderson. The Premier promised that the Cabinet the equality of duty and responsibility, and that Ireland cannot take all the advantages accruing to its association with Great Britain, while refusing to bear a share in the burdens and sacrifices of the United Kingdom of which it is a part. The Daily Telegraph recalls that Ireland did not refuse the gift of old age pensions, of land, and the building of laborers' cottages. Many Laborites who oppose Conscription in Ireland, do so, not from principle, but because they believe it is not wise in existing circumstances.
