The Keel Row," and the among the home on the bells of the Royal Ex-The explanation came one week when a party of jourvere invited to Gillett and famous bell foundry at on the southern outskirts , to hear the Exchange bells st and retuned. The brand ells weighing seven tons altoce of the old tunes heard for so many years show the superiority of a f tuning known as the principle. The finthe world, it is claimed, rned out in Britain. They of pure copper and otin in on of, roughly, 75 per the former. The old bellmixed other metals in the with results deplored by the bell world. The tone out of the new bells were true and resonant, and the bells from Rochester which have come in to be Most of the bells of the are out of tune, the bell ex--a thing one had often suswhen trying to sleep within is of a church tower. Bells w hung not on the old picle beams but in metal frames leering lines. This makes inging easier and helps togood and even ringing. To re-

MEDICAL STUDENTS RAISE MON-EY.

London hospital students' forays in wasteful. search of subscriptions to the deplet-Ils weighing seven tons altower scen mouth upward on were seen mouth upward on as an organized campaign indry floor, and the head of the to streets, theatres, and restaurants. BATTERIES are lively and for the good results which it has "pitches," and High Street, Kensing-

on, during the shopping hours of the them all. As a student said, "If you stand in the front of the queue with the box under the noses of the people as they come away from the booking office with their change in their hands, you nearly always get it all." The dance clubs, I am told, are strangely disappointing, one of the most fashionable only contributing \$40 in the course of the evening although another, not inearly so exclusive, raised over \$400 in under an hour. Incidentally, it must be pleasant for the collectors to have a good excuse to go to dance clubs, instead of grinding up anatomy.

CIGARETTES IN THE BATH. The habit of an early morning cigarette is widespread, and I know any number of people who declare that they cannot start the day without a pre-breakfast smoke. A West End of London tobacconist is trying to make capital out of this, and in his window advertises long and amber cigarette-holders to ensure "a dry smoke in the bath." I suppose the lovs of the early smoke may well be marred if the cigarette is, flavored with soap. Will some inventor now come along with a patent shaving mirfor to facilitate that acme of matutinal luxuries, a shave in a hot bath?

FOR LUCKY CHILDREN. The disply of toys at the big shops more wonderful this year than

#### Another War Coming On Bronchitis!

The campaign last year against Bronchitis was so successful that the public is fully determined to renew hostilities against this formidable foe this winter. People are going into action armed with the world's mightiest and most destructive weapon—Buckley's Bronchitis Mixture. The germs of bronchitis, colds, etc., are driven out of their strongly-entrenched position, and thousands of victims are relieved in a most miraculous manner. It is positively wonderful the way this remedy does its work. The demand for it is phenomenal—over 6,000 bottles being sold in thirty days in Ottawa last winter.

Buckley's Bronchitis Mixture is not a syrup, but a scientific mixture guaranteed to relieve the werst case of bronchitis, coughs, colds, hearseness, asthma, le grippe, influenza, etc.
